

EX101 Dual Head Fume Extractor Unit

The EX101 is a powerful fume extraction unit with high quality build and functionality. All units are equipped with filter blocked warning capabilities, both visual and audible, which helps avoid down time.

The EX101 is a compact extraction unit able to extract from 1 or 2 stations with various hose and capture options to provide greater flexibility and ease of use – ideal for extraction applications within the Electronics industry and for use with our range small reflow ovens, vapour phase ovens and digital hot plates. See all system features below:

Features

- LCD Display with Visual and audible ‘filter blocked’ warning that alerts the operator when a filter starts to block and should be changed. This prevents downtime.
- Filter blocked warning system
- **Powerful Purification:** Boasting a large flow rate of 258 m³/h, a CFM of 139, and 150Watts of power that balances high efficiency and energy conservation, this device can swiftly clear away smoke and guarantee fresh air.
- Automatic electronic flow control – maintains a constant extraction rate even as the filter blocks
- Adjustable airflow Operating noise level of less than 63DB
- Operates worldwide with no loss of performance
- Low capital and running costs
- The EX101 features a three-layer filtration structure. The pre-filter and HEPA filter work together to effectively block most of the large particles in the air. Subsequently, the main carbon filter filters out harmful dust and smoke smaller than 0.3 microns in

FORTEX

the air, protecting your eyes and lungs from pollution. Submicronic (HEPA) filtration removes 99.8% of particles down to 0.3 microns

- Activated carbon filtration removes harmful gas
- Simple to install and quiet in operation
- Easy to relocate
- Fume Extraction Cabinet Precision made from steel
- Remote control supplied with unit

Specifications

- Cabinet Height: 400 mm 15.8"
- Cabinet Width: 293 mm 11.5"
- Cabinet Depth: 240 mm 9.5"
- Cabinet Weight: 10 kg
- 110-230vAC – Wattage: 150 Watts Frequency 50/60Hz
- Diameter of Air Inlet Interface 75mm
