

FEATURES

- **Sintered Bronze Material:** Provides high strength and wear resistance, ensuring long-lasting performance.
- **45.06 mm Outside Diameter:** Suitable for a wide range of applications, offering versatility in design.
- **35 mm Length:** Compact size allows for easy integration into existing systems.
- **34.97 mm Shaft Diameter Compatibility:** Ensures a precise fit for optimal functionality and reduced vibration.
- **Plain Bearing Design:** Offers low maintenance and high reliability, reducing downtime and operational costs.

RS PRO Sintered Bronze Plain Bearing, 45.06 mm Outside Diameter

RS Stock No: 518-225

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price

Product Description

This RS PRO sintered bronze plain bearing is designed for smooth and efficient operation in various mechanical systems. Its primary use is to reduce friction between moving parts, ensuring longevity and reliability in demanding environments. The sintered bronze construction offers excellent durability and resistance to wear, making it ideal for applications requiring consistent performance.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	34.97 mm

Mechanical Specifications

Length	35 mm
Material	Sintered Bronze
Outside Diameter	45.06 mm
