

FEATURES

- **Sintered Bronze Construction:** Provides excellent wear resistance and longevity.
- **1-1/4 in Length:** Suitable for a wide range of applications requiring specific dimensional compatibility.
- **1.12 in Outside Diameter:** Ensures a snug fit within compatible housings.
- **0.74 in Shaft Diameter:** Designed to accommodate standard shaft sizes for seamless integration.

RS PRO 1-1/4 in Plain Bearing, Sintered Bronze

RS Stock No: 528-809

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for smooth and efficient rotational movement in various mechanical systems. Made from high-quality sintered bronze, it offers excellent durability and reliability for industrial applications. The bearing is ideal for use in environments where low maintenance and high performance are essential.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	0.74 in

Mechanical Specifications

Length	1-1/4 in
Material	Sintered Bronze
Outside Diameter	1.12 in
