

STACKTECH® BAR | TB-B1-A-30

The ToughBuilt® StackTech® Bar is designed to bring the StackTech and ClipTech systems together.

Simply attach ClipTech hubs to the StackTech Bar and create a perfect storage solution for your ClipTech pouches on the StackTech tool box. With its sturdy, heavy-gauge metal construction, StackTech Bar can withstand the rigors of daily use in any environment. It easily snaps onto the side of StackTech tool boxes, transforming them into a highly organised workspace. Pull levers on the sides make it easy to remove the Bar when you need to reposition or detach it from the tool box. The utility of the StackTech Bar is not limited to ClipTech pouches. It has five positions where you can attach StackTech Organiser bins, tape measures, and more, in addition to ClipTech pouches, giving you the freedom to customise the setup to suit your needs and preferences.
