

FEATURES

- **Silicone adhesive:** Offers excellent adhesion to a variety of surfaces, including steel, with a strength of 6 N/25 mm
- **Polyimide film backing:** Provides superior heat resistance and durability
- **Amber colour:** Enhances visibility during application and removal
- **Length of 33 m:** Ensures ample material for extensive projects
- **Thickness of 0.06 mm:** Allows for precise application without bulk
- **Tensile strength of 56 N/cm:** Ensures the tape withstands mechanical stress

RS PRO Silicone Adhesive High Temperature Masking Tape

RS Stock No: 677-039

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO high temperature masking tape is designed for demanding industrial applications where heat resistance and durability are crucial. With its silicone adhesive and polyimide film backing, it provides reliable performance in high-temperature environments, making it ideal for use in electronics manufacturing and powder coating processes.

General Specifications

Adhesion Strength	Steel - 6 N/25 mm
Adhesive Material	Silicone
Colour	Amber
Product Type	High Temperature Masking Tape
Tensile Strength	56 N/cm

Mechanical Specifications

Backing Material	Polyimide Film
Length	33 m
Thickness	0.06 mm

Approvals

Standards/Approvals	ANSI-ESD S20.20:2021, REACH, RoHS
