

FEATURES

- **Sintered Bronze Material:** Provides excellent wear resistance and durability, ensuring long service life.
- **50 mm Length:** Suitable for a wide range of applications, offering versatility in use.
- **32.06 mm Outer Diameter:** Ensures compatibility with various housing dimensions, facilitating easy integration.
- **21.98 mm Shaft Diameter:** Designed for precise fitment, reducing vibration and noise.

RS PRO 50 mm Sintered Bronze Plain Bearing, 32.06 mm Outer Diameter

RS Stock No: 528-884

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

The RS PRO sintered bronze plain bearing is designed for applications requiring reliable and efficient rotational movement. Its robust construction ensures durability and optimal performance in various industrial settings. The primary benefit of this plain bearing is its ability to reduce friction between moving parts, enhancing the lifespan of machinery.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	21.98 mm

Mechanical Specifications

Length	50 mm
Material	Sintered Bronze
Outside Diameter	32.06 mm
