UK Rural Skills.
Approved Provider

TRAINING LOCATIONS

Makita have a dedicated Training Team with facilities for all your training requirements. At our London, Glasgow, Wigan Factory Service Centres or Milton Keynes head office we offer a wide spectrum of courses ranging from induction courses to the power tool industry and refresher courses for new tools through to Health and Safety focused courses accredited by City & Guilds.

Makita has always had the vision that society and global communities should be able to develop for themselves, and future generations. By providing the tools, Makita is ensuring that anything is possible.

We can be certain of this by the initiatives that guide our business every step of the way. From our regard for the environment, evolving safety measures and innovations in design and manufacturing, we're sure that not only are we contributing to a better today, but investing in a better future.

Makita offers a BeSafe training program including demonstrations by our product experts which provide guidance on tool selection, and safe use for operatives. The program is based on our approved City & Guilds Assured course. This is ideal for all year groups that are using power tools or grounds maintenance, forestry and landscaping equipment.
