

FEATURES

- **Sintered Bronze Material:** Offers excellent wear resistance and self-lubricating properties, reducing maintenance needs
- **25mm Length:** Suitable for compact installations where space is limited
- **26.05mm Outside Diameter:** Ensures a precise fit in standard housings
- **19.98mm Shaft Diameter:** Compatible with common shaft sizes for easy integration

RS PRO 25mm Sintered Bronze Plain Bearing, 26.05mm OD

RS Stock No: 518-184

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price

Product Description

This RS PRO sintered bronze plain bearing is designed for applications requiring low friction and high wear resistance. Ideal for use in rotating and oscillating machinery, it provides reliable performance with minimal maintenance. The sintered bronze construction ensures durability and efficient operation in various industrial environments.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	19.98 mm

Mechanical Specifications

Length	25 mm
Material	Sintered Bronze
Outside Diameter	26.05 mm
