

Age Range

Suitability will vary based on experience and knowledge, but we recommend this kit as follows:

Ages 6 and up: With full adult-assistance for sewing and coding.

Ages 8 and up: With some adult-assistance for sewing and coding.

Ages 10+: Minimal adult-assistance to get started.

We would not recommend this kit for ages 5 and below.

The sharp needle and small parts make this kit unsuitable for ages 3 and under.

What's in the kit?

Everything you need to make a gesture controlled wearable instrument! Just add scissors.

- 'Includes micro:bit' kit includes a **micro:bit v1**
- MINI.MU kit is also compatible with micro:bit v2
- Felt with screen-printed glove patterns
- MINI.MU sewable speaker
- Needle and thread
- Crocodile clips
- Battery pack
- 2x AAA batteries
- USB data cable
- Instructions: how to make, wire, code, and play
