

FEATURES

- **Sintered Bronze Material:** Provides high strength and excellent wear resistance, ensuring long-lasting performance.
- **1-1/2 in Length:** Suitable for applications requiring a specific bearing length, enhancing compatibility with various setups.
- **1 in Outside Diameter:** Fits standard housing dimensions, simplifying installation and replacement.
- **0.74 in Shaft Diameter Compatibility:** Ensures a precise fit for shafts, reducing vibration and noise.
- **Plain Bearing Design:** Offers low friction operation, improving efficiency and reducing energy consumption.

RS PRO 1-1/2 in Plain Bearing, Sintered Bronze

RS Stock No: 558-519

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for efficient and reliable performance in various industrial applications. Made from high-quality sintered bronze, it offers excellent durability and resistance to wear. Ideal for use in machinery where low friction and smooth operation are essential, this bearing supports shafts with a diameter of 0.74 inches.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	0.74 in

Mechanical Specifications

Length	1-1/2 in
Material	Sintered Bronze
Outside Diameter	1 in
