

Volition™ Faceplates Keystone

The 3M Volition faceplate range can be loaded with either K5e or K6 jacks

- 22,5x45 mm, 1 port
- 45x45 mm, 1 port
- 45x45 mm, 2 ports

The 45X45 mm version has a fixing mechanism allowing correct positioning in either vertical or horizontal trunking or outlets

A label holder and a white application icon (coloured icons are available separately) complete the presentation to give a smart and functional appearance.

With the choice of UTP, FTP or STP 360° braid or foil connection RJ45 K5e or K6 jacks offers you the required electromagnetic compatibility level.

Highlights

- Cat 6 hardware sockets when loaded with our RJ45 K6 jacks
- Fits in all outlets and trunking suitable for 45x45 mm faceplates
- Cat 6 hardware - easy installation, even on shallow trunking and outlets, thanks to the low profile jack and the choice of cable entry from top or bottom on all versions of the jack.
- When loaded with the RJ45 K5e or K6 jacks, the faceplates have all the benefits of their unique tool-less design :
 - fast reliable connection in record time : all 8 copper conductors are effortlessly terminated in a single operation
 - quality of connection by design : not dependant on tool condition or operation skill - just listen for the click
 - consistent results : length of untwisted pairs and length between the end of the conductor and the IDC contacts are always kept to a minimum - by design

Technical Data

Features

- Cat 6 hardware socket when loaded with RJ45 K6 or K5e jacks
- Aperture(s) for jacks using Keystone fixing
- Reduced depth when loaded with RJ45 K6 or K5e jacks
- Flat surface design - shutter integral to the jack (when loaded with K6 or K5e range)
- Label holder and white application icon(s) included (coloured application icons optional)
- Fixing mechanism allows correct positioning in either vertical or horizontal trunking or outlets (45x45 mm versions)
- Choice of cable entry orientation (top or bottom) when loaded with any version of the RJ45 K6 or K5e jack
