

FEATURES

- **Sintered Bronze Material:** Provides excellent wear resistance and durability, ensuring long service life.
- **1/2 in Length:** Compact design allows for easy integration into tight spaces.
- **0.87 in Outside Diameter:** Ensures compatibility with a wide range of housings.
- **0.74 in Shaft Diameter:** Suitable for standard shaft sizes, facilitating easy installation.
- **Low Friction Operation:** Reduces energy consumption and enhances efficiency in mechanical systems.

RS PRO 1/2 in Plain Bearing, Sintered Bronze

RS Stock No: 528-119

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

RS PRO offers a high-quality plain bearing designed for smooth and efficient operation in various mechanical systems. Made from sintered bronze, this bearing is ideal for applications requiring low friction and high wear resistance. Its compact size and robust construction make it suitable for demanding industrial environments.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	0.74 in

Mechanical Specifications

Length	1/2 in
Material	Sintered Bronze
Outside Diameter	0.87 in
