RS PRO 7 Tread Professional Aluminium Stepladder with High Continuous Handrail, EN131

RS Stock No.: 0827592

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

The RS PRO 7- Tread Stepladder is designed for light- duty professional use, offering a slim, compact profile that is easy to handle, store, and position. A continuous handrail, extended extra high, provides enhanced comfort, stability, and confidence when ascending or descending.

Constructed from lightweight yet durable aluminium, this stepladder is ideal for offices, retail environments, education facilities, and maintenance tasks where safe and convenient low- level access is required. Manufactured to the EN131 Professional standard, it meets modern safety and performance requirements for professional use.
