

66IM/50C3HSS

1/4" Impact Torsion Bit Set for Phillips/Pozidriv/Hex/ TORX® Head Screws and 3HSS drills - 50 Pcs

PRODUCT DETAILS

- For Phillips, Pozidriv, hexagonal, and TORX® head screws
- Includes 50 pieces: 41 Impact Bits + 1 slim impact resistant magnetic quick release bit holder + 2 Impact Torsion Hex Drive Socket Adaptors + 3 Impact Torsion Magnetic Nut Drivers + 3 HSS Drill Bits
- TORX® bits have colored sleeve to easily identify the size of the tip.
- Developed for use with impact drivers and suitable for hard material applications.
- Designed for long-time works, the Torsion zone can effectively spread the strength concentration.
- Torsion zone absorbs torque peaks and makes the bits more wear resistant against sudden impacts (in hard materials or when using an impact driver), preventing the tip from breaking prematurely and improving service life.
- High performance alloy steel
- Manganese Phosphate finish
- 1/4" hex drive DIN 3126 and ISO 1173, style C 6.3
- 75 mm magnetic bit holder with lock in type system (style E 6.3)
- HSS drill bits for drilling in Metals, wood and plastic; 3, 4, 5mm
- TiN coating extends the product life and increases the heat resistance for higher cutting speeds
- 1/4" Hexagon shank compatible with quick-change chucks and impact drivers and provides secure grip
- Faster and more efficient drilling thanks to the self-centering split point
- Extended drill life in harder material with a 135 degree tip angle
- Resistant glass fiber reinforced case, tough and durable for good protection of the content
- The patented case has a 180° locking function: case stays in open position even if turned [up to 500g of added weight] without closing on your fingers.
- The lid and body of the case can be split for flexible organizing in trolley drawer or toolkit.
- The box is designed to be stacked on top of each other without sliding off, when using multiple sets.
- Swiveling racks allow space optimization and easy access to the bits
- Sticker delivered within the set for personalization and user identification.
- Delivered in a cardboard sleeve.
