MULTI-ZONE RF REMOTE CONTROLLER RF DEC/REMOTE-C5

Specifications :

Radio frequency remote controller compatible with the RF dimmer-receiver DEC/DIMRF-768. It offers large capabilities in terms of lighting control as it can control up to 4 independent controllers. Each zone can be very simply controlled.

Very helpful in the context of home usage, this remote controller finds its place as well in a professional environment to control meeting rooms, offices, restaurant dining rooms or a shop.

Its 10 meters range and its "sensitive" keys system offer an optimal comfort.

Installation is very fast thanks to its automatic pairing function.

Features :

- Range : 10 meters
- Power : lithium battery CR-2025
- Control : 4 zones
- Usage : indoor
- Gencode : 8428315273490
