

FEATURES

- **Sintered Bronze Material:** Offers excellent wear resistance and self-lubricating properties, reducing maintenance needs.
- **1.25 in Outside Diameter:** Ensures compatibility with a wide range of housings and applications.
- **7/8 in Length:** Compact design for use in tight spaces without compromising performance.
- **0.99 in Shaft Diameter:** Provides a precise fit for optimal function and reduced vibration.

RS PRO Sintered Bronze Plain Bearing, 1.25 in OD

RS Stock No: 528-829

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO sintered bronze plain bearing is designed for high-performance applications where durability and reliability are critical. Ideal for reducing friction between moving parts, it provides smooth operation and extends the lifespan of machinery.
