VELOBAR11FIX

Mobile bike barrier rack

This mobile and self-supporting bike rack offers a practical and modular solution for temporary parking, ideal for events. Made of robust steel tubes, it can accommodate up to 11 bicycles with a 65 mm wheel spacing and features removable legs that can be anchored to the ground for enhanced stability. Its design also allows multiple racks to be connected together, making it easy to create flexible parking areas adapted to different needs.

Customs code	73269098
EAN	3321360109934

Color : Grey

Material : Galvanized steel

Specifications :

- Mobile, freestanding bike rack.
- Ideal for temporary use at events.
- Holds up to 11 bikes.
