

FEATURES

- **Sintered Bronze Material:** Provides high strength and wear resistance, ensuring long-lasting performance.
- **Compact Design:** With a length of 1 inch and an outside diameter of 0.75 inches, it fits easily into confined spaces.
- **Optimised Shaft Diameter:** Designed for a shaft diameter of 0.56 inches, ensuring a precise fit and smooth operation.
- **Low Friction:** Reduces energy consumption and heat generation, enhancing efficiency.
- **Corrosion Resistance:** Suitable for use in environments where moisture or chemicals are present.

RS PRO 1 in Plain Bearing, Sintered Bronze

RS Stock No: 528-190

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for applications requiring reliable and efficient motion control. Made from sintered bronze, it offers excellent durability and performance in various industrial settings. The bearing's compact size makes it ideal for use in tight spaces, providing smooth operation and reducing wear on moving parts.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	0.56 in

Mechanical Specifications

Length	1 in
Material	Sintered Bronze
Outside Diameter	0.75 in
