

- Provides secure connectivity

- Available in 3 or 6 Port Units

- Attractive Low profile design

### Product Description

The new LAN-Lock outlet is the ideal solution for hospitals, schools, reception areas or any place of public access where network security is a concern. Available in 3 or 6 way sizes, LAN-Lock's two part, low profile casing is moulded from sturdy ABS and will accept either UTP or FTP patch cords.

These units can be easily mounted onto most surfaces and utilises HellermannTyton's 16 and 25mm standard trunking adaptors, incorporating rear cable entry and internal fly lead anchor points. The 3 way version has fixings suitable for standard back boxes.

### Features and Benefits

- Fully modular- individual PCB's
- Rear cable tie point
- 568A or 568B wiring options
- Tamper-proof screw (option)
- Incorporates rear cable entry and internal fly lead fixing points
