

## FEATURES

- **Sintered Bronze Construction:** Provides high strength and excellent wear resistance, ensuring long service life.
- **1.75in Outside Diameter:** Suitable for a wide range of shaft sizes, offering versatility in application.
- **1-3/4 in Length:** Compact design allows for easy integration into existing systems.
- **1.49 in Shaft Diameter Compatibility:** Ensures a snug fit and optimal performance with compatible shafts.
- **Self-Lubricating:** Reduces maintenance needs and enhances operational efficiency.

## RS PRO 1.75in Plain Bearing, Sintered Bronze

RS Stock No: 528-840

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

This RS PRO plain bearing is designed for reliable performance in various industrial applications. Made from high-quality sintered bronze, it offers excellent durability and resistance to wear, making it ideal for environments where longevity and low maintenance are crucial.

## General Specifications

Product Type	Plain Bearing
Shaft Diameter	1.49 in

## Mechanical Specifications

Length	1-3/4 in
Material	Sintered Bronze
Outside Diameter	1.75 in
