SCHEDULE

- (a) This product is constructed from ABS and polycarbonate and must not be used in atmospheres known to have an adverse effect on these materials.
- (b) The enclosure of this product is manufactured from non-conductive materials and as such may present a static risk in explosive atmospheres – clean only with a damp cloth.
- (c) The equipment must only be fitted with either “Eveready Energizer” E91, “Duracell” MN1500, or Ray-O-Vac AL-C alkaline “AA” size cells. Old and new cells must not be mixed. Different brands must not be mixed. Cells shall only be replaced in a non-hazardous area.
- (d) The lamp may only be replaced with a Pelican/Peli catalogue number 2404 lamp module.
