

FEATURES

- **Sintered Bronze Material:** Provides high strength and wear resistance for extended service life
- **0.62 in Outside Diameter:** Fits seamlessly into standard housings for easy installation
- **0.37 in Shaft Diameter:** Compatible with common shaft sizes, ensuring versatility
- **Low Friction:** Enhances efficiency and reduces energy consumption in mechanical systems

RS PRO 7/8 in Plain Bearing, Sintered Bronze

RS Stock No: 528-096

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for reliable performance in various industrial applications. Made from sintered bronze, it offers excellent durability and reduced friction, making it ideal for use in machinery where smooth operation is critical. The compact design with a 7/8 inch length ensures easy integration into existing systems.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	0.37 in

Mechanical Specifications

Length	7/8 in
Material	Sintered Bronze
Outside Diameter	0.62 in
