- PU (Polyurethane) palm coating
- 100% Nylon, 280 denier with 13 gauge
- Resistance: $1 \times 10^{6-8}$ Ohms

RS PRO ESD PU Palm Glove - Nylon

RS Stock No.: 712623, 712625,
712626, 712627

RS PRO Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This white, lightweight, static dissipative glove with PU coated palm is an ideal antistatic glove for electronics and component handling. The polyurethane coating on palm and fingers help to prevent product contamination as well as offering excellent grip and ESD protection. Meanwhile, the uncoated back of the glove provides ventilation, helping to perspiration and clamminess. Colour-coded cuffs enable users to quickly find the size required. Please note that these gloves are not washable.
