

### Features:

- Modular construction
- Coaxial design
- Interchangeable spring contact tip
- New IC contacting system for 0.8 to 1.27 mm pitch

The PMS 201A-RO is a 25 MHz, standard sized, 1:1 passive probe designed for instruments having 1 M $\Omega$  input resistance. This type of probe is recommended for general purpose probing applications. All passive probes are equipped with PMKs signature spring loaded, needle sharp tips to support precise and safe measurements minimizing the risk of slipping off the board. Various types of tips are available. Besides the spring contact tips there is also a solid tip available at the users choice. Probe tips are interchangeable and can be replaced easily. Basic probe accessories and replacement tips are provided within the scope of delivery or can be purchased separately. The probes mechanical construction is modular and therefore spare probe leads are available. See this data-sheet and corresponding documents for further details.

Thank you for your interest in our product!

This datasheet supersedes all previously published material. Specifications that are defined typical are not guaranteed and are published as general information to the user. The instrument should have warmed up for at least 20 minutes and the environmental conditions must not exceed the specified limits of the probe. Note that specifications are subject to change without notice.

## Electrical specifications

<i>Attenuation ratio</i>	1:1
<i>Probe bandwidth</i> <sup>(1)</sup>	25 MHz (-3 dB)
<i>Probe risetime</i>	14 nsec
	(10 % – 90 %) (typical)
<i>Maximum rated input voltage</i> <sup>(2)</sup>	55 V rms CAT II
<i>Pollution degree</i>	2

## Electrical characteristics

<i>Input capacitance (system)</i>	37 pF + oscilloscope (typical)
<i>Input coupling of the measuring instrument</i>	1 M $\Omega$ AC / DC

## Mechanical characteristics

Weight (probe only)	49 g
Cable length	1.2 m
Probe tip diameter	5 mm

(1) at 15 pF input capacitance of the measuring instrument.

(2) As defined in IEC 61010-031

### Environmental specifications

<i>Altitude</i>	operating	up to 2000 m
	non-operating	up to 15000 m
<i>Temperature range</i>	operating	0 °C to +50 °C
	non-operating	-40 °C to +71 °C
<i>Maximum relative humidity</i>	operating	80 % relative humidity for temperatures up to +31° C, decreasing linearly to 40 % at +50 °C

### Declaration of conformity

The manufacturer declares the conformity of his products with the actual required safety standards in accordance with the Low Voltage Directive (LVD)2006/95/EC:

CEI/IEC 61010-031:2002

Safety requirements for electrical equipment for measurement, control and laboratory use.

Part 031:

Safety requirements for hand-held probe assemblies for electrical measurement and test.

### WEEE/ RoHS directives

PMK electronic products are classified within the WEEE/ RoHS\* category list as monitoring and control equipment (category 9). Category 9 products are exempt from the restrictions under the scope of the RoHS directive.

Your help and efforts are required to protect and keep clean our environment. Therefore return any electronic product at the end of its life either to the manufacturer or take care of separate WEEE collection and professional WEEE treatment yourself. Do not dispose as unsorted municipal waste!

\* EC Directives:

WEEE Directive 2002/96/EC	–	Waste Electrical and Electronic Equipment
RoHS Directive 2002/95/EC	–	Restriction of the use of certain Hazardous Substances in Electrical and Electronic Equipment

### Scope of delivery PMS 201A-RO Order No. 820-201-A01

- |                                |                      |
|--------------------------------|----------------------|
| ■ Probe                        | ■ Insulating cap 5.0 |
| ■ Ground blade 5.0             | ■ Protection cap 5.0 |
| ■ Ground lead 22 cm            | ■ Solid tip 0.8 mm   |
| ■ IC-Caps 0.8 to 1.27 mm pitch | ■ Spring tip 0.8 mm  |
| ■ Instruction manual           | ■ Sprung hook 5.0    |

### Safety information

To avoid personal injury and to prevent fire or damage to this product or products connected to it, review and comply with the safety informations stated in the manual before using this product. Be aware that if you use this probe assembly in a manner not specified the protection this product provides may be impaired.

**Only qualified personnel should use this probe assembly.**
