

Description

Highly adhesive open gear spray reinforced with solid lubricants. Provides a tenacious lubricating film with outstanding anti-wear properties designed for application to open gears that mesh precisely and require thin film lubrication.

- Highly adhesive to eliminate throw-off in use
- Solid lubricant, including molybdenum disulphide and PTFE, provides protection in shock loading conditions
- Provides excellent corrosion protection and repels moisture
- Can be applied to moving gears

Directions for use

Shake well before use.

Hold in an upright position, spraying directly onto gear teeth from a distance of 30cm ensuring thin, even coverage.

DANGER

Contains: Hydrocarbons, low viscous.
Contains: carboxylic acid zinc salt, Thiadiazole derivative. May produce an allergic reaction
Extremely flammable aerosol. Pressurised container: May burst if heated. Causes skin irritation. May cause drowsiness or dizziness. Harmful to aquatic life with long lasting effects. Keep out of reach of children. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Do not spray on an open flame or other ignition source. Do not pierce or burn, even after use. Do not get in eyes, on skin, or on clothing. Avoid release to the environment. Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F. Dispose of contents/container to an appropriate treatment and disposal facility in accordance with applicable laws and regulations, and product characteristics at time of disposal.

GEAR LUBE

Tenacious open gear spray

Excellent anti-wear characteristics

May be applied to moving gears

Protects against corrosion

Repels moisture

No CFC propellants - Ozone friendly

High performance aerosol range
