Application	vertical inside elbows are used for creating a vertical upward transition from GigaDuct horizontal routes. This model offers a 45° bend and is supplied without cover.
Colour	Yellow (YE)
PART DESCRIPTION	LG-BVIA45-YL-N
Product Family	Elbow - Vertical Inside
Product Group	Fittings
Short Description	GigaDuct Elbow, Vertical Inside, 45°, 300mm, No Cover
Technical Description	GigaDuct is a robust, scalable cable management system engineered specifically for organising and protecting optical fibre cables in the data centre environment. Constructed with precision, it provides a dedicated pathway that prevents cable congestion, minimises physical stress on fibres, and facilitates efficient cable management. Whether you are setting up a new data centre or upgrading an existing one, HellermannTyton's GigaDuct offers unmatched versatility and reliability.
Type	LG-BVIA45-YL-N
