

FEATURES

- **Sintered Bronze Material:** Offers excellent wear resistance and durability.
- **1.75 in Outer Diameter:** Ensures compatibility with a wide range of housings.
- **Self-Lubricating:** Reduces maintenance requirements and downtime.
- **2-1/4 in Length:** Provides stability and support for rotating shafts.
- **1.49 in Shaft Diameter:** Suitable for standard shaft sizes, ensuring easy integration.

RS PRO Sintered Bronze Plain Bearing, 1.75 in Outer Diameter

RS Stock No: 594-745

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO sintered bronze plain bearing is designed to provide reliable performance in various industrial applications. Known for its durability and low maintenance, this bearing is ideal for use in environments where lubrication is challenging. Its primary benefit is the self-lubricating property, which reduces the need for frequent maintenance.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	1.49 in

Mechanical Specifications

Length	2-1/4 in
Material	Sintered Bronze
Outside Diameter	1.75 in
