RS Pro 3 mm 20° Automatic Punch, 139 mm

Product Details

Carbide Point Automatic Centre Punch

A hand operated automatic centre punch with a carbide point which gives this tool exceptional wear resistance. The fine point angle and pen style appearance make this tool particularly suited to scribing or dot punching on soft, ductile materials mild steel or abrasive aluminium alloy materials, where standard HSS tooling would quickly dull.

Specifications:

Overall Length	139 mm
Shank Diameter	3 mm
Point Angle	20
Punch Type	Automatic
