

78

Combination padlock with safe-mechanism

78 KC

Application:

- Low to medium security requirement where convenience of use is a high priority (e.g. schools, companies)

Operation:

- Turning the adjustment wheel to the specified combination

Technology:

- 78KC: master key opens more than 2,000 different individual combinations
- High protection against manipulation
- cathoretic coating: better protection against corrosion
- anti-shimming: new shimming proofed feature (pat. pend.)
