

CONDUCTIVE HINGED WEZ BOX

25-303-00XX

The ESD version of the hinged box is made from dimensionally stable polypropylene. You can safely and firmly package your electronic components using a lid and box made from a single piece with a snap lock and integral hinge.

Applications: These models are ideally suited for safely storing and shipping small electronic parts.

Product specifications

- Material: Conductive Polypropylene
- Closed flat base
- Closed walls
- Color: black
- Surface resistance: $<10^4 \Omega$

Part Number	External Dimensions (LxWxH - mm)	Internal Dimensions (LxWxH - mm)	Volume	Weight	Useable height
