

Chapter 8 Barrier

Product code: CH8

Overview

The revolutionary new C8 barrier, has been designed with tomorrow's innovation.

Its modular design and versatility, takes into consideration the movement and logistics of these barriers, while allowing easy customisation for colourways and branding. More reflectivity, greater stability, with all the same robust quality built into the Skipper range. Even the delineating chevrons can be made to reflect, increasing visibility and directional flow.

Product Specifications

Width: 2000mm 78.74"	Height: 1000mm 39.37"
Depth: 40mm 1.57"	Weight: 7kg 247oz

Key selling points

- Can breakdown into 1m x 1m sections for easy transportation
- Connectors articulate 360 degrees
- Anti-Trip feet
- Modular design

Key features

- Compatible with the full Skipper range of products
- Modular design with options for extra reflective strips or lights
- Patented design

Product FAQs

Q. I have a small transport van, will this barrier fit?

A. Thanks to it's modular design, the Skipper C8 barrier can be disassembled into 2 (1m x 1m) halves allowing easy transportation to site.

Q. Can you replace the reflective strips with other imagery?

A. Yes, in cases where chapter 8 compliance is not required the reflective strips can be replaced with advertising/branding.

Q. What colours are available?

A. Our main colours are Orange, Red and Yellow. Other colours are available on request.
