

SAFETY LOCK

The Safety Lock 74 is an essential tool for enhancing communication among your staff, both prior to and during maintenance activities. With this lock, you can rest assured of complete transparency in the workflow, ensuring that everyone is aligned and working towards the same tasks.

The Safety Lock 74 offers reliable protection for your employees with a key-retaining feature and "one lock - one key - one operator" rule. It simplifies organizing and planning with ten color options and clear laser engravings for individual assignments.

Technologies

- Solid aluminum core with steel shackle for best physical strength
- Body and shackle insulated against electric shock
- NANO-PROTECT™ shackle for superior corrosion resistance
- Intrinsically safe, key retaining
