**DESCRIPTION**

## Motorcycle spring puller

The spring puller is the ideal tool for removing or installing exhaust, brake, seat, tank and side stand springs, and can also be used for split pins. This tool makes it easier to remove and install springs, which will save time for you. The 80mm-wide handle offers a sure grip whereas the length of 175 mm allows you to access springs in the narrowest of spaces. Time-savings when installing and removing springs. Ideal tool for exhaust, brake, seat, tank and side stand springs. Can also be used for split pins. The 80mm-wide handle offers an excellent grip. Its length of 175 mm allows you to access the narrowest of spaces.
