

FEATURES

- **Sintered Bronze Material:** Provides excellent wear resistance and durability.
- **50mm Length:** Suitable for a variety of mechanical applications.
- **46.06mm Outside Diameter:** Ensures compatibility with standard housings.
- **39.97mm Shaft Diameter:** Designed for precise fit and smooth operation.

RS PRO 50mm Sintered Bronze Plain Bearing

RS Stock No: 558-443

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for smooth and efficient operation in various mechanical systems. Made from high-quality sintered bronze, it offers excellent durability and reliability. Ideal for applications requiring low friction and high wear resistance, this bearing ensures optimal performance and longevity.
