

## ECOSPILL DRAIN GUARD OIL & SEDIMENT 60"

### PRODUCT

The Ecospill Drain Guard is engineered to filter stormwater waste before it becomes a problem in the water system. As a storm drain filter, it removes contaminants like litter, sand, and oil from stormwater flow. Its geotextile fabric, Ultra-Filter-Tex, and easy installation make it ideal for industrial facilities, construction sites, and parking lots where stormwater runoff is likely to carry oil, eroded soil, debris, and fuel contaminants from cars.
