Datasheet

RS Pro Contact Cleaner Lubricant

RS Stock No: 917-5914

RS 917-5914 is a solvent lubricant blend designed to remove surface contamination and oxidation from all metallic contact surfaces. Use of this product reduces resistance across the switch by increasing contact surface area. It also ensures long term protection by deposition of a contact lubricant.

- . Excellent electrical properties
- . Compatible with an array of plastics and rubbers
- . Rapid solvent evaporation;
- . Silicone-free

Approvals

RoHS-2 Compliant (2011/65/EU):

Yes

Typical Properties

Colour	Clear Oake Straw
Specific Gravity @ 20°C	0.665
Flash Point	-48
Temperature Range	-40°C to 130°C
Viscosity @ 20°C (cSt)	640
Pour Point	-37°C
Copper Corrosion	Nil
Evaporation Weight loss @100°C 72 hours	6.2%

Packaging

400ml Aerosol

Order Code

RS 917-5914

Typical Product Applications

Primary for slider/rotary tuners, ball or roller wiping contacts, slip rings and bushes. It can also be used in rocker/push-pull switchers and general electro-mechanical uses. RS 917-5914 contains flammable solvents in order to remove CFC content. It should not be sprayed onto live contacts or other sources of ignition.
