

## FEATURES

- **Sintered Bronze Material:** Provides excellent durability and wear resistance, ensuring long-lasting performance.
- **3/4 in Length:** Suitable for a range of shaft sizes, offering versatility in application.
- **0.75 in Outside Diameter:** Ensures compatibility with standard housing dimensions for easy installation.
- **0.49 in Shaft Diameter:** Designed to fit snugly, reducing vibration and noise during operation.

## RS PRO 3/4 in Plain Bearing, Sintered Bronze

RS Stock No: 528-180

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

This RS PRO plain bearing is designed for smooth and efficient operation in various industrial applications. Made from high-quality sintered bronze, it offers excellent durability and performance. Ideal for use in machinery where low friction and high wear resistance are crucial, this bearing ensures reliable operation and extended service life.

## General Specifications

Product Type	Plain Bearing
Shaft Diameter	0.49 in

## Mechanical Specifications

Length	3/4 in
Material	Sintered Bronze
Outside Diameter	0.75 in
