

## FEATURES

- **Sintered Bronze Material:** Provides high strength and resistance to wear, ideal for demanding environments
- **1-1/2 in Length:** Suitable for a range of applications, offering versatility in design
- **1.12 in Outside Diameter:** Ensures compatibility with standard housings for easy installation
- **0.87 in Shaft Diameter:** Designed to fit common shaft sizes, enhancing adaptability

## RS PRO 1-1/2 in Plain Bearing, Sintered Bronze

RS Stock No: 528-824

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

This RS PRO plain bearing is designed for applications requiring reliable and efficient rotational movement. Made from sintered bronze, it offers excellent durability and performance in various industrial settings. The bearing's primary benefit is its ability to reduce friction and wear, ensuring smooth operation and extended equipment life.

## General Specifications

Product Type	Plain Bearing
Shaft Diameter	0.87 in

## Mechanical Specifications

Length	1-1/2 in
Material	Sintered Bronze
Outside Diameter	1.12 in
