

FEATURES

- **Sintered Bronze Material:** Offers excellent wear resistance and durability, reducing maintenance needs
- **30 mm Length:** Suitable for a wide range of applications, providing flexibility in design
- **20.05 mm Outside Diameter:** Ensures compatibility with standard housings, simplifying installation
- **13.98 mm Shaft Diameter:** Designed to fit common shaft sizes, enhancing versatility

RS PRO Sintered Bronze Plain Bearing, 30 mm Length

RS Stock No: 528-877

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO sintered bronze plain bearing is designed to provide reliable and efficient performance in various industrial applications. With a length of 30 mm and an outside diameter of 20.05 mm, it is ideal for use in environments where low friction and high wear resistance are crucial. The sintered bronze material ensures durability and longevity, making it a cost-effective solution for maintaining machinery efficiency.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	13.98 mm

Mechanical Specifications

Length	30 mm
Material	Sintered Bronze
Outside Diameter	20.05 mm
