

FEATURES

- **Sintered Bronze Material:** Provides high strength and wear resistance, ensuring long-lasting performance.
- **1/2 in Length:** Suitable for applications with specific size requirements, offering versatility in installation.
- **0.75 in Outside Diameter:** Allows for easy integration into existing systems without the need for extensive modifications.
- **0.62 in Shaft Diameter Compatibility:** Ensures a snug fit for shafts, reducing vibration and noise during operation.
- **Self-Lubricating:** Minimises maintenance needs by reducing the frequency of lubrication.

RS PRO 1/2 in Plain Bearing, Sintered Bronze

RS Stock No: 528-192

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for applications requiring reliable and efficient rotational movement. Made from sintered bronze, it offers excellent durability and performance in various industrial settings. Its compact size makes it ideal for use in machinery where space is limited.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	0.62 in

Mechanical Specifications

Length	1/2 in
Material	Sintered Bronze
Outside Diameter	0.75 in
