Revolutionary WYPALL<sup>®</sup> L Wipers  
with AIRFLEX<sup>®</sup> Fabric

**GET MORE**

**Absorbency**

The larger air pockets created by our unique patented technology can absorb more water and oil faster, so you need fewer sheets to get the job done.

- Absorbs over **2 times more water** than conventional wipers.<sup>1</sup>
- Absorbs **37% more oil**.<sup>1</sup>

**GET MORE**

**Strength**

Due to the unique fibre structure of AIRFLEX® Fabric, new WYPALL® L Wipers deliver unrivalled wet strength, so they can clean up spills fast without falling apart or becoming soggy.

- More than **2 times stronger** when wet, compared to conventional wipers.<sup>1</sup>

**GET MORE**

**Bulk**

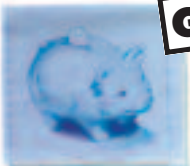

Because we don't compress our wipers, the fibres aren't flattened. This makes our WYPALL® L Wipers feel thicker than conventional wipers and offer great hand protection.

- **19% more bulky** than traditional paper wipers.<sup>1</sup>

**GET MORE**

**Value**

The outstanding drying performance of AIRFLEX® Fabric means that you need less sheets to do the job, which means less wastage.

- Highly absorbent wipers can **cut consumption by up to 15%**.<sup>2</sup>
- Reduces wiping time - performs better, so the job gets done faster.
- Reduces disposal costs.

**The microscope captures the secrets of AIRFLEX® Fabric**

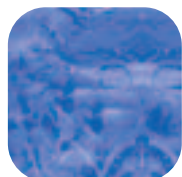

The AIRFLEX® Fabric structure with large air pockets quickly absorbs more water and oil.

**In tests, 8 out of 10 users preferred AIRFLEX® Fabric to conventional wipers.<sup>3</sup>**

**It's only available from Kimberly-Clark Professional\*.**

A conventional wiper's crushed, flat and dense structure means less absorbency.

<sup>1</sup> In laboratory tests, WYPALL® L40 Wipers were compared against a main competitor 3 ply wiper:- absorbed 144% more water and 37% more oil. wet cross - directional tensile strength was 121% higher. - bulk was 19% higher.

<sup>2</sup> Independent market research showed that WYPALL® L10 Wipers compared with a 1 ply conventional wiper, reduces the number of wipers used by 15%.

<sup>3</sup> Independent market research at a number of locations compared WYPALL® L Wipers with AIRFLEX® Fabric with conventional wipers over a number of tasks:  
- 8 out of 10 users preferred WYPALL® L10 Wipers over 1 ply conventional wipers.

**More performance** - Whether you're preparing work surfaces, cleaning equipment or wiping your hands, these wipers are guaranteed to clean up.

**Means you use less** - WYPALL® L Wipers made from AIRFLEX® Highly Absorbent Fabric are over 2 times more absorbent than traditional paper wipers. They also have incredible wet strength, so you need less to clean up more.

**Means you save more** - Fewer wipers are needed, so there's less wastage, which makes for better cost in use. This is good news for any budget holder.

### Roll Control - Delivering hygiene and low 'cost-in-use'

Attractive in function, form, convenience and economy, this system is only available from Kimberly-Clark Professional\*. Our patented design, which dispenses wipers individually, eliminates the excessive waste caused by the "streaming" of traditional centrefeed systems and can cut wiper consumption dramatically.

Tests show that WYPALL® L20 Wipers made from AIRFLEX® Fabric can reduce consumption by up to 20% compared to 2 ply centrefeed wipers\*. So for both your light and medium duty tasks, ROLL CONTROL with WYPALL® L Wipers delivers the COST CONTROL you've been looking for.
