DESCRIPTION

Hydraulic column presses with pedal

Machine used for compacting, exerting pressure or using force. Compact, functional design integrates all hydraulic components inside the chassis, saving space in the workshop and providing protection during transport.

Working area without winch cables. Patented.

All foot-operated functions keep hands free for work.

Gauge protected inside the frame and positioned at eye level for easy reading.

Manual screw extension for fast approach and fine adjustment. Winch for easy manoeuvring. Automatic piston return by spring.
