The idea came in 1928 - the perfect writing instrument. One that would write evenly, make carbon copies, and not drip or blot. No small matter in the pre-ballpoint era! The result was an inkpen that used a tube instead of a nib - the rotring Tiku or Inkograph. It became a byword for precision writing.

The Tiku was an innovative solution and since then the meeting of writing and drawing challenges through innovation has become the hallmark of the rotring company.

Hence, in 1950 a dialogue with draftsmen and designers gave rise to the idea of further developing the Tiku tubular tip to create the world’s first technical pen - the original Rapidograph. It was refillable, created precise sharp-edged lines and had a capillary ink feed that gave a consistently smooth flow of ink. It set the standard, and indeed became synonymous with technical drawing.

Over the years the Rapidograph was followed by many other drawing products. Rotring created an interlinking system for the professional drafter, from compasses and templates to the latest generation of the Rapidograph.

Functionality and technical perfection make rotring drawing instruments symbols for quality and precision. They continue on in the tradition laid down by founder Wilhelm Riepe back in 1928.
Today, rotring drawing instruments can be found wherever individuals actively create their own lifestyles. People who understand the power of their thoughts and visions, and express them.

This need to create, understand, and express is an integral part of the development of every rotring drawing instrument. Today rotring provides a comprehensive system of products offering the optimum solution for every application within technical drawing and design, for professional drafters, students and private individuals alike.

The perfection of technology, ergonomics and design creates a universe that is ideal for drawing, also enhancing the perfect expression of ideas and visions.
### rotring rapidograph

For tracing paper, vellum drawing paper and lineboard.

The rapidograph uses rotring’s unique capillary cartridge. The pressure-equalization system, including ink helix is part of the ink cartridge which ensures that every time you change the cartridge, you get a clean new ink helix. This means that you never need to clean the ink helix and top reliability is guaranteed.

### rotring rapidograph capillary cartridges

Line widths for drawing per ISO 128 and DIN 15 and for lettering per ISO 3098/I-DIN 6776.

Drawing tube in 3 mm dia. metal bushing.

The double helix built into the capillary cartridge guarantees optimum pressure compensation.
The rapidograph work sets with pen stations keep your technical pens ready to draw instantly. Simply place the pen in the pen station with light pressure. The ideal horizontal position and a grip flexible double seal prevent the pen from drying. Individual pen stations can be taken from the set and affixed to table or drawing board with double-sided tape (provided with the work set).

* All sets include compass attachment for 3.5/4 mm dia. and stencilling joint.
**Junior Set**
Contents: 3 rapidograph pens, 1 Tikky burgundy 0.5, 6 ink cartridges

**College Set (Pen Station)**
Contents: 3 rapidograph pens, 1 Tikky burgundy 0.5, 12 hi-Polymer HB leads, 1 B20 eraser, 3 pen stations, 3 ink cartridges, 1 compass attachment

**College Set (4 pens)**
Contents: 4 rapidograph pens, 12 hi-Polymer HB leads, 1 B20 eraser, 6 ink cartridges, 1 compass attachment

**Master Set**
Contents: 3 rapidograph pens, 1 Tikky burgundy 0.5, 12 hi-Polymer HB leads, 1 B20 eraser, 6 ink cartridges, 1 Centro compass, 1 compass attachment
**rotring isograph**

For tracing paper, vellum drawing paper and lineboard.

The isograph has a refillable ink reservoir. Its innovative push-on sleeve makes for easy access to the ink helix for fast cleaning.

**rotring pen cleaning unit for technical pens**
For cleaning technical pens overnight. Fill cup half-full with water, add cleaner concentrate, place disassembled pen parts in the basket, and screw shut. Turning the unit over causes the cleaning solution to rinse through the pen parts, for thorough cleaning of even the most stubborn ink residues.

R S0215490 (R585281) with 10 sachets of cleaner concentrate

**rotring cleaner concentrate**
For cleaning dirty, encrusted technical pens and nibs. Dissolve concentrate in water in the rotring pen cleaning unit. Cleaning time will depend on how dirty the pens are.

S0215340 (R585270) Pack of 10 sachets

**rotring cleaning fluid for technical pens**
For cleaning drawing instruments used with non-etching drawing inks.

S0215410 (R585280) 100 ml

**rapid-eraser B20 / B30**
For erasing polymer/graphite pencil lines from all drawing media. The elastic white plastic eraser contains no abrasives, so it will not affect ink lines. It works by rolling up graphite and dirt particles in eraser dust. The erased surface stays clean, with no smears or marks. The dust brushes easily off the media surface.

**rotring rapid PRO**

The perfect professional tool for all sketching, writing and drawing applications!

Solid metal, hexagonal barrel shape and the knurled grip underline its technical expertise. Available in satin & shiny chrome plated & matt black powder coated.

**2.0 mm pencil**

With innovative push mechanism for controlled lead transportation that provides unlimited drawing precision and features a sharpener integrated in the push cap.

**Mechanical pencils 0.5 & 0.7 mm**

Equipped with a cushion point mechanism and sliding pipe to support a convenient and highly comfortable long writing distance.

**Ballpoint pen**

Retractable, with document proof giant refill in M, blue.

--

**rotring 300 clutch pencil**

2.0 mm clutch pencil with adjustable lead hardness grade indicator and a sharpener integrated in the push cap. Hexagonal barrel shape and knurled grip - the economical 2.0 mm alternative.

**rotring leads for clutch pencils, 12 pcs.**

Free Ink – The intelligent solution
Free ink technology is a perfect example of rotring’s innovative force. Our free ink writing instruments have clear advantages: The ink feed module gives a free yet controlled flow of ink from the reservoir onto the paper, eliminating the need for a conventional ink storage plug. This makes it possible to use 100% of the ink contents, with consistent line quality down to the very last drop. The ink level window shows the amount of ink left in the reservoir at any time.
**Tikky 3 in 1 Multipen**

TIKKY 3 in1 Multipen is the ultimate all-round talent! Ergonomical design and convincing functionality through a technically advanced "magic view" mechanism. Easy to use, TIKKY 3 in 1 is a technical and efficient multi-functional tool for all writing, drawing and sketching needs.

**Magic View**

This highly convenient mechanism turns the multipen optionally into a mechanical pencil, a ballpoint pen to highlight or a ballpoint pen to write. Holding the pen in your hand, just look at the desired mode icon, press the push button and …… simply write!

Also available as Tikky ballpoint with Jumbo refill.

**Tikky**

The ergonomic wave-form grip area offers a good hold. With its classic design, the Tikky is the ideal mechanical pencil for school and office. The fixed sleeve offers an unimpeded view of the page, making the Tikky excellent for drawing with a straight-edge or template.

The professional tool in classic black and burgundy. Additional colour coding analogous to ISO 3098 displays the available line widths at a glance: 0.35/0.5/0.7/1.0

Hi-Polymer leads ensure high flexibility and durability while keeping the lead-support tip clean.

Tikky fine leads

High-polymer fine leads are a solid foundation for you to build on. Their extra-strong formula turns your mechanical pencil into something more than just a refillable pencil.

Tikky erasers

The Tikky erasers can be relied upon to remove pencil and coloured pencil lines without a trace. By using dirt-catching additives and avoiding hard abrasives, they make sure that the media surface always remains clean.

**COMPACT**

**Rapid adjustment compass**
Fast and precise radius adjustment
Mobility of the spindle can be fixed by set screw
Both legs with joint
Ergonomic plastic application and handhold depressions
Circles up to Ø 360 mm
Pivot: Ø 4.0 mm
Length: 170 mm
Lead box and spare needle
S0676580

**Giant Universal Compass**
Fast and smooth radius adjustment
Both legs with joint
Ergonomic plastic applications and handhold depressions
Circles up to Ø 360 mm
Pivot: Ø 3.5 mm
Length: 160 mm
Lead box and spare needle
S0676550

**Geometry Compass**
Precision radius adjustment through central wheel spindle
Both legs with joint
Ergonomic plastic applications and handhold depressions
Circles up to Ø 360 mm
Pivot: Ø 4.0 mm
Length: 170 mm
Lead box and spare needle
S0676570

**Compass Set (6-pieces)**
Contents: giant universal compass, stable extension bar, compass attachment with universal holding device, drawing pen, drawing pen holder, lead box and spare needle
Circles up to Ø 520 mm
S0676560

Compass Set (8 pieces)
Contents: universal compass, small dividing compass, extension bar, dividers, bow compass, drawing pen, drawing pen holder, lead box and spare needle
Circles up to Ø 600 mm
Pivot: Ø 3.5 mm
S0233821
(R5302260)
**Compass accessories**

**Dual compass attachment**
With stepped peg to fit 3.5 and 4.0 mm dia.
Peg slot adjustable by 90°.
S0322070  (R533345)

**Lead inserts with button mechanism**
For master bow and pump compasses with pen adaptor.
Brass mechanism in burgundy plastic housing.
S0271530  (R538235) with 0.5 mm lead

**Compass attachment with universal holding device**
for CENTRO and CONVEX series
With stepped peg to fit 3.5 mm and 4.0 mm dia.
S0451450  (R5333600)

**Compass attachment with universal holding device**
for COMPACT series
With stepped peg to fit 4.0 mm dia.
S0830620
With stepped peg to fit 3.5 mm dia.
S0897800

The universal holding devices takes pens/pencils up to 11.5 mm dia.
**Professional Set Square**
- Crystal clear, robust plastic
- Convenient, removable grip
- Clearly and precisely embossed
- Counter-directional numbering with coloured background
- Indian ink edges and naps
- Angle scales 180°/1°
- Hypotenuse 32 cm with 30 cm / 1 mm scale

**Large Geometry Set Square with Handle**
- Crystal-clear, stable plastic
- Robust handle
- Contrary scale with coloured background
- Bevelled edges and ink naps
- Hypotenuse 23 cm with 20 cm/1 mm scale

**Geometry Set Square**
- Crystal-clear, stable plastic
- Contrary scale with coloured background
- Bevelled edges and ink naps
- Hypotenuse 16 cm with 14 cm/1 mm scale

**Geometry Set Square with Handle**
- Crystal-clear, stable plastic
- Robust removable handle
- Contrary scale with coloured background
- Bevelled edges and ink naps
- Hypotenuse 16 cm with 14 cm/1 mm scale
Geometry Set (4 pieces)
Crystal-clear, stable plastic
Bevelled edges and/or tracing edges
Contents: 30 cm ruler, semicircular protractor
set square 30°/60°, hypotenuse 23 cm,
set square 45°, hypotenuse 20 cm
S0221370  (R823509)

Semicircular Protractor
Crystal-clear, stable plastic
Contrary scale
Centring point and bevelled edges
Scaling: 10 cm
S0221230  (R823301)

Set Square 30°/60°
Crystal-clear, stable plastic
tracing edges all round
Angles: 30°/60°
Hypotenuse 23 cm, 18 cm/1 mm scale
S0221090  (R823202)

Standard Parabola (y = x²)
Crystal-clear, stable plastic
Bevelled edges on the outside contours
Sine/cosine curves A = 1 and A = 0.5
Tangent curve
Size: 123 × 70 × 1.8 mm
S0673400

Set Squares Sets of 2
one 45° and one 30°/60° set square
Crystal-clear, stable plastic
Tracing edges all round
1 mm scale
S0237840  45°, hypotenuse 25 cm
(R823523)  30°/60°, hypotenuse 29 cm
S0237870  45°, hypotenuse 32 cm
(R823530)  30°/60°, hypotenuse 37 cm
S0237900  45°, hypotenuse 36 cm
(R823547)  30°/60°, hypotenuse 41 cm

All set squares have 0 point directly
on tracing edge to enable direct
measurement of line segments.
**Burmester Curves Set**
(3 pieces)
For drawing of universal curves
Crystal-clear, stable plastic
Double-sided tracing edges all round
S0221301 (R8234000)

**Plate Ruler**
Crystal-clear, stable plastic
Textured plate
Scale on both sides
1 x 1-mm scale
1 x 0.5-mm scale
S0221020 (R823141) Scaling: 30 cm

**Flat Ruler**
Crystal-clear, stable plastic
Bevelled edge and tracing edge
1 mm increments
S0220870 (R823103) Scaling: 16 cm
S0220950 (R823127) Scaling: 30 cm
S0221450 (R823578) Scaling: 40 cm
S0221500 (R823585) Scaling: 50 cm

**Wooden Ruler**
Natural beech wood
Bevelled edge
1 mm increments
S0237930 (R823593) Scaling: 17 cm
S0237950 (R823594) Scaling: 30 cm

**Triangular reduction scales**
Of white dimensionally stable plastic.
The precision divisions are numerated both ways.
Dimension markings in cm and m for easier working.
With 2 coloured flutings.

</table>
rotring rapid drawing board
The full-featured drawing board for speed, precision and ease of use.

- Robust board of unbreakable, non-warping material.
- Ergonomic design for easy, comfortable working.
- Parallel straight-edge with STOP-and-GO locking/unlocking action.
- **The L-system straight-edge design** - allows drawing along the top edge of the straight-edge right down to the bottom of the sheet, with full accuracy and stability.
- Two magnetic clamp strips with central pushbutton operation plus additional corner clamp, for exact media positioning and absolutely secure holding.
- Guide rails designed for permanently smooth, featherlight straight-edge movement.
- End lock on A3 straight-edge for added stability.
- Comes complete with rapid set square for drawing vertical and horizontal lines and angles.
- Includes tilters for comfortable working.

rotring profil drawing board
For precise drawings and easy, comfortable working.

- Robust board of unbreakable, non-warping material.
- Ergonomic design for easy, comfortable working.
- Parallel straight-edge with STOP-and-GO locking/unlocking action.
- **The L-system straight-edge design** - allows drawing along the top edge of the straight-edge right down to the bottom of the sheet, with full accuracy and stability.
- Magnetic clamp strip plus additional corner clamp to hold media securely.
- Guide rails designed for permanently smooth, featherlight straight-edge movement.
- End lock on A3 straight-edges for added stability.
- Can be used with tilters (purchased separately) for added working comfort.

**rotring profil drawing boards**

- S0213750 (R522231) profil A3
- S0232430 (R522241) profil A4

**Tilters** for profil and rapid drawing boards. Enable board to be tilted at either of two angles for comfortable working.

- S0232330 (R522227) 1 pair

**Accessories for drawing boards**

**Professional drawing head**
with automatic setting every 15° and locking of any angle in between, plus free-swing setting. Contra-rotating 0-90° scale, brake mechanism to lock in position on straight-edge.

S0213830  (R522346)

**Junior drawing head**
with 15° ratchet action.

S0213680  (R522230)

**Multipurpose drawing template II**
With 15°, 30°, 45°, 60°, 90° angles, circles with diameters from 1 - 15 mm in steps of 1 mm, ellipses with large axes 12, 15, 20, 25, 30, 35, 40, 50 mm, surface symbols, dimensioning arrows, line device for standard lettering, 7°/42° angles for dimetric projection.

S0232590  (R522352)

Rapid set square
For direct measurement and drawing of vertical and horizontal lines and angles, and for hatching.

S0232240  (R522225)

**rotring college case, empty**
This rigid case features guides to hold drawing board securely, as well as space for drawing instruments.

S0232510  (R522273)  for A3 boards
S0232550  (R522274)  for A4 boards

**rotring**

---

35
rotring collegeboard A3
For sheet sizes up to 450 x 325 mm.
• Magnetic clamp with scale.
• Straight-edge guide slots on all four sides with signal humps.
• Parallel straight-edge with grip area and STOP-and-GO button.
• Additional metal clamp.
S0213660 (R522110)

Protective carry bag
Tough weatherproof nylon.
Has detachable shoulder strap and space for books and utensils.
S0232160 (R522213) for A3 boards
S0232200 (R522214) for A4 boards
rotring A2 drawing table
A complete drawing system with drawing board laminated on all sides, anodized aluminium guide track with plastic guide coating, parallel straight-edge with STOP-and-GO mechanism, drawing head with STOP-and-GO mechanism and adjustable plastic tilter.

S0213920  (R522433)  A2  (board size 700 x 600 x 16 mm)

rotring T-square-set A2
With precision anodised-aluminium guide track and plastic glide coating. Fast, simple mounting on drawing board or other work surface with special clamps.

- Parallel straight-edge with STOP-and-GO mechanism.
- Drawing head with STOP-and-GO mechanism.
- 2 special clamps made of plastic.
- Without drafting table

S0232880  (R522442)  A2
Lettering - as neatly as if printed

A precise technical drawing is not complete without true-to-standard lettering, and for that you need rotring’s precision lettering stencils. The rotring lettering stencils are stamped with markings to show the line width and character height. This ensures that the right pen and the right stencil are used together for true-to-standards lettering.

rotring lettering stencils are made of high-quality plastic and are especially resistant to warping and breakage. The clear, yellow-tinted material provides for high contrast so that even the finest lines are clearly visible. All edges are highly precise.

rotring lettering stencils are available with H-profile and Z-profile.

---

**Lettering stencils in Z-profile**

per ISO 3098/I, lettering type B

**rotring technical templates**

rotring precision templates are robust and non-warping, with perfectly formed, true-to-standards symbols selected for the most varied applications.

The transparent, yellow-tinted material leaves even the finest of lines (e.g. ones drawn with a rotring fine-lead pencil) clearly visible through the template.

---

**“Studio” electrical engineering angle template**

A drawing aid for metalworking students. With 15°, 30°, 45°, 60°, 75°, and 90° angles, mm coordinate graduation, protractor, circles from 1-18 mm dia., and holes for hatching. Symbols and easy-to-combine symbol elements per DIN 40700, Latin and Greek characters in 3.5 mm and numerals in 3.5 and 5.0 mm sizes per ISO 3098/I Bv.

---
