## ENVIRONMENT

43

# MOSAIC™ Programme adaptable for more flexibility

Legrand, designer of the 45 x 45 format, is reinventing the original: the new Mosaic Programme provides all the mains voltage and information network solutions for fitting out commercial sector buildings. These are solutions suited to the specific requirements of the work areas making up professional premises. This gives you an answer contributing towards the building's performance, guaranteed compatibility between all components of the system and a common attractive appearance for the whole of your electrical installation. Mosaic Programme also includes the services to provide you with made-to-measure solutions and logistics suited to your requirements.

## ENVIRONMENTALLY-FRIENDLY PRODUCTS

The life cycles of Mosaic Programme solutions have been analysed in order to reduce their environmental impact from manufacturing right through to end-of-life treatment. The results of these analyses are given in the PEPs (Product Environmental Profiles) and are available on request.

This symbol will help you identify the products that actively contribute towards optimising energy use in the building.

## Mosaic™ functions

200 even more innovative functions suited to the commercial sector

Hygiene and healthcare  
Touch sensitive switch

RJ 45 socket 10 GIGA

### In the wall

Combine perfectly with Batibox Programme supports and flush-mounting boxes

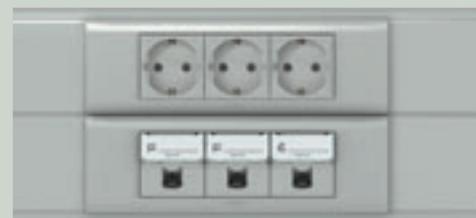

→ page 16

### On the wall

DLP trunking and Mosaic functions ... the winning duo

→ page 20

### Via the ceiling

Columns for yet more installation freedom and flexibility

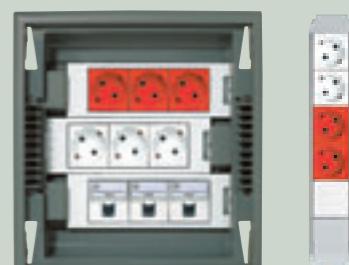

→ page 22

### Via the floor

Floor boxes and desktop multi-outlet extensions, perfectly suited to commercial sector requirements

→ page 24

### Local

Office modules, mini-column and meeting room module: good design, easy to use

→ page 28

04

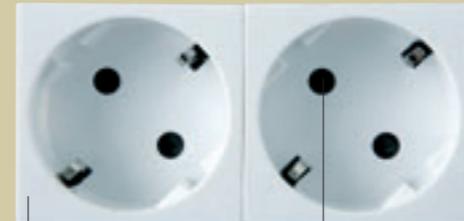

MOSAIC Programme

## FUNCTIONS FOR FITTING OUT ... individual work areas

- Assigned offices, call centres, flexible office space, etc.
- Access to mains voltage, ELV and controls within arm's reach
- High-performance, easy-to-use functions integrating technology

### PREWIRED MULTIPLE SOCKETS

Completely safe and fast installation for all your equipment supports (flush-mounting box, column module, floor box, desktop multi-outlet extension, etc.)

Aluminium and white finish      Sockets oriented at 45°

Available with 2, 3 or 4 wells, standard or polarised tamper-proof non standard

### RJ 45 SOCKETS

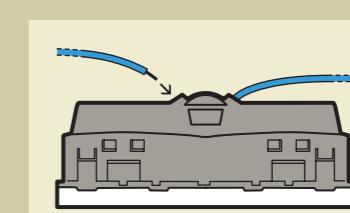

**10 GIGA, Cat. 6, Cat. 5e:**  
All UTP, FTP and STP computer requirements in 1 or 2 modules.

- Pivoting window for ease of marking  
Sprung transparent cover

Automatic connection, disconnection by simple action on the push button

- For flexible and rigid conductor  
Colour marking L, N and  $\text{L}^{\text{N}}$

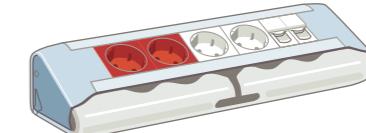

- Spreading of the cables  
- Tapping-off made easy  
- Convenient to use

### COMPUTER SOCKETS

USB2 socket    IEEE 1394 socket

For side-by-side connection of the user's computer equipment (digital camera, USB key, PDA, etc.)

**legrand**

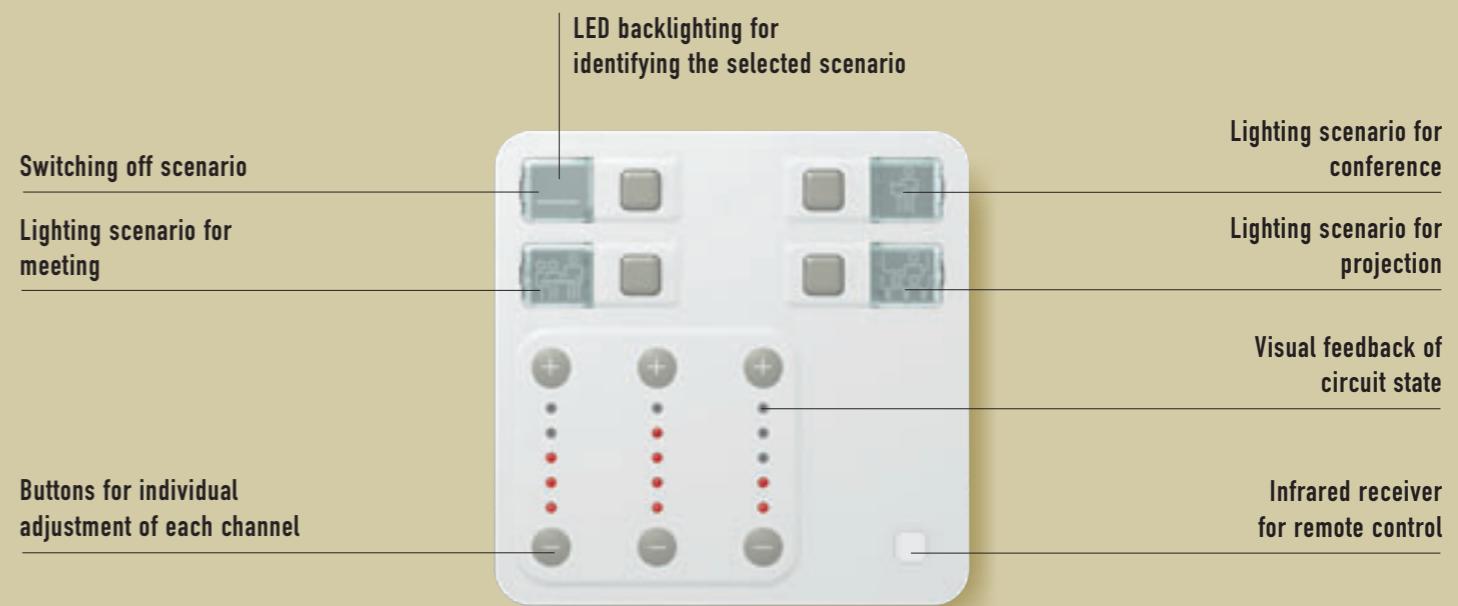

MOSAIC Programme

## FUNCTIONS FOR FITTING OUT ... shared work areas

- Meeting, conference and training rooms, etc.
- Control of the light, video and sound equipment, and access to information networks
- Making the most of wireless solutions and remote controls

### LIGHTING ENVIRONMENT CONTROLLER

Simple and intuitive definition of lighting environments without programming, allowing the light to be perfectly adapted to the activity in the room

### WI-FI ACCESS POINT

Wi-Fi access point (802.11 a+b/g dual band) equipped with an RJ 45 socket. Allows secure wireless connection whilst retaining a wired connection point. Very compact (4 modules) and with no connection to 230 V~ (supplied by P.O.E.\*)

### AUDIO AND VIDEO SOCKETS

XLR socket  
Connection for sound systems

HD15 socket  
Connection for the computer, video projector, plasma screen, etc.

FIND OUT ABOUT  
THE MEETING ROOM  
MODULE  
→ page 30

### And always ...

- 
- RONIS key control
  - 1000 W dimmer
  - 3.5 mm jack socket for microphone connection
  - RCA triple socket

\*Power Over Ethernet

Eco-solution, for more information, see page 42

08

**legrand**

MOSAIC Programme

FUNCTIONS FOR FITTING OUT ...

## passageways

- Intermediate areas, corridors, drinks areas, etc.
- Access to mains voltage and ELV, signage, automatic lighting
- Self-contained functions incorporated into the building

### ILLUMINATED SIGN

Lighting used for identifying specific rooms

Available in 2 or 5 modules

Labels can be customised with a simple text editor

Pivoting window for easy insertion of the label

20 preprinted labels in 2 or 5 modules available with a simple order

### OBSTACLE INDICATOR

Motion detector with infrared detection cell

Disengageable audible warning device

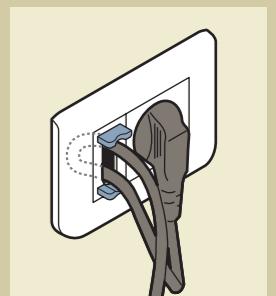

LED lighting for illuminating the way as a person passes

### ANTI-EXTRACTION MODULE

Can be used in combination with a socket to avoid accidental unplugging of electrical equipment (photocopiers, fax machines, computers, etc.)

Extraction resistance 350 N (35 kg)

### And always ...

Automatic switch

Emergency stop mushroom head

Class A audible warning device

Equipped cable outlet

➤ See the functions

pages 34 to 37

Eco-solution, for more information, see page 42

10

MOSAIC Programme

FUNCTIONS FOR FITTING OUT ...

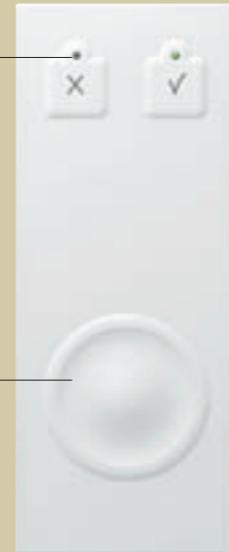

## reception areas

- Entrance hall, secretarial office, information point, etc.
- Lighting controls, access control, information feedback, security, etc.
- Simple, easy-to-use functions for enhancing reception areas

### ACCESS CONTROL

Self-contained or centralised on a controller with 3 user interfaces to suit operating requirements perfectly.  
Very compact: 5 modules vertically

Open/close indicator light

Badge reader

LCD screen with LED indicator for programming and identification

Biometric fingerprint reader

Coded keypad

### 1000 W DIMMER

For multiple load control.  
Completely silent and integrated  
(5 modules vertically).

Lighting circuit status indicator

On/off controls

### TECHNICAL ALARM MASTER PANEL

Associated with alarm control panels, feeds back the fault using an audible and visual signal  
(3 modules horizontally)

LEDs for illuminated indication

Alarm activation and silencing

Label holder for identifying the technical detector

### And always ...

European key barrel

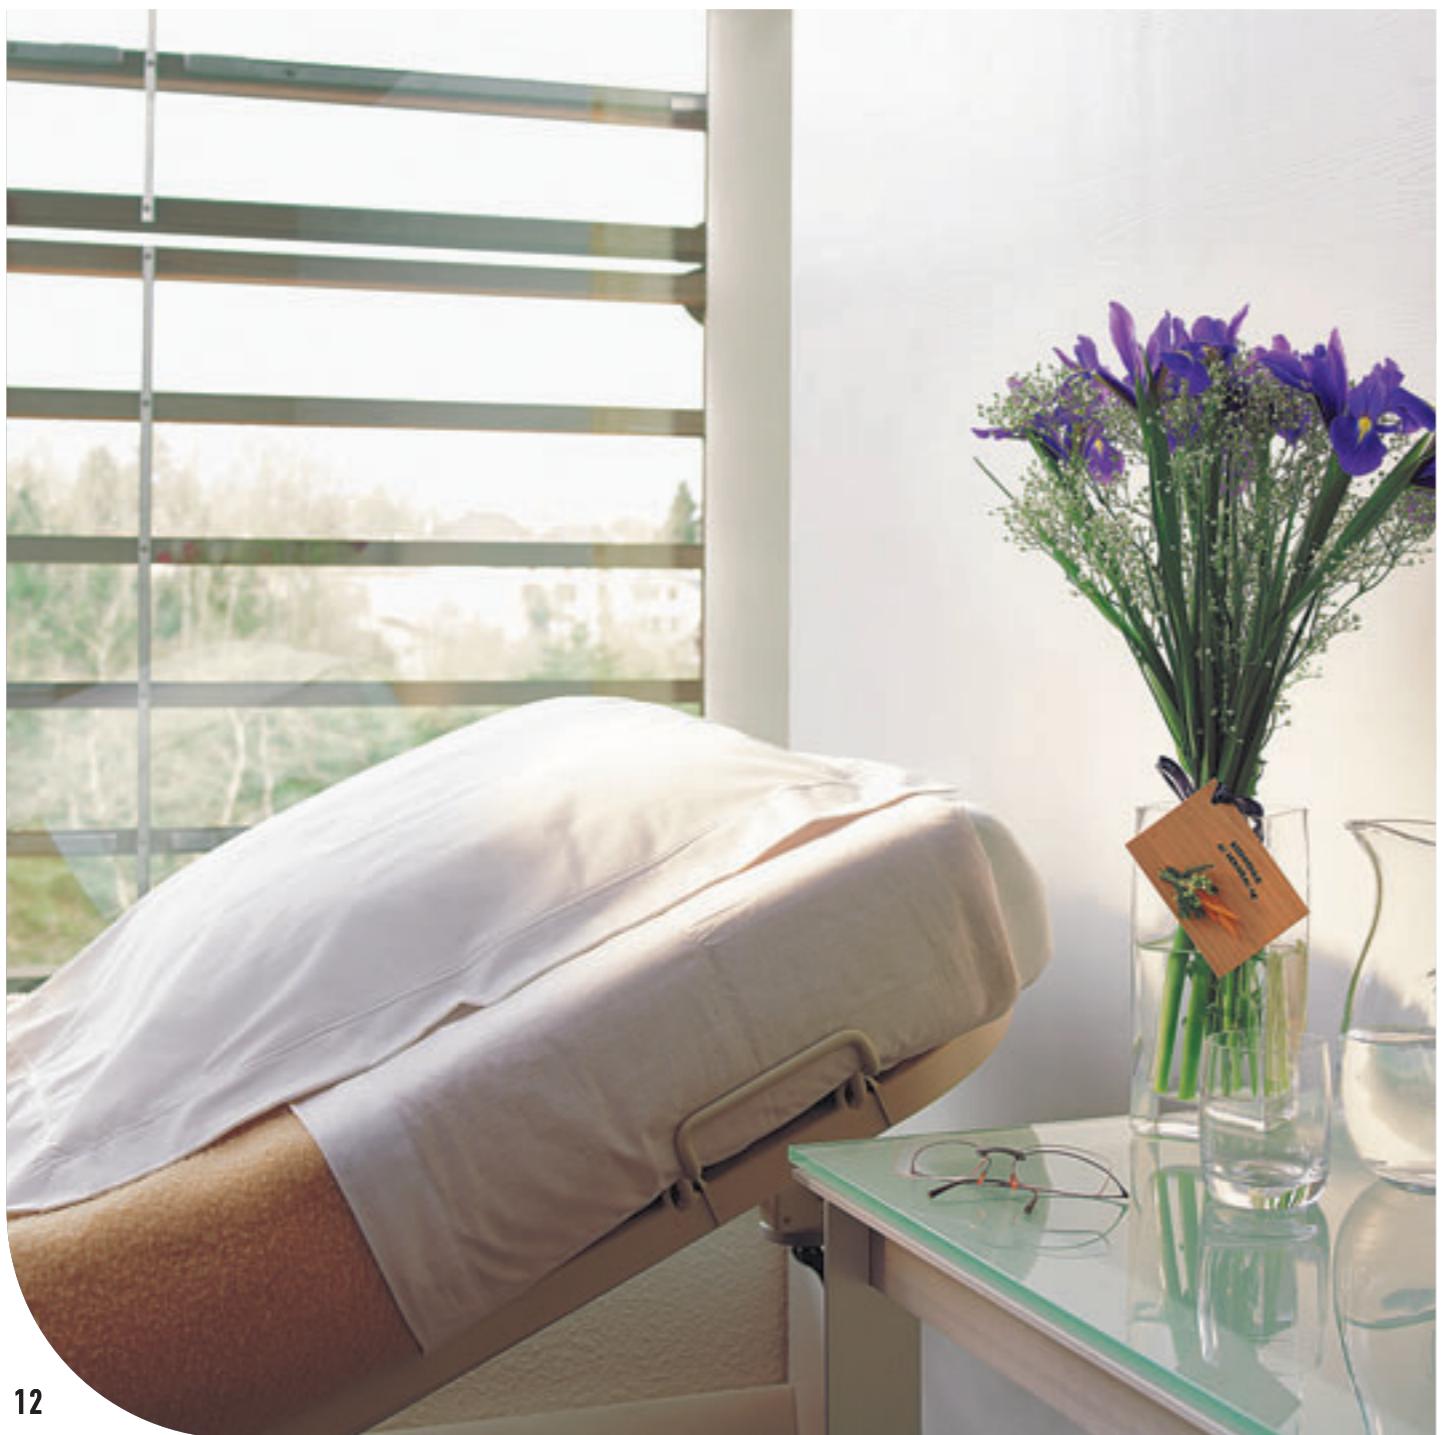

Awning and roller blind control

Mains voltage sockets

ELV sockets

➤ See the functions

pages 34 to 37

12

**legrand**

FUNCTIONS FOR FITTING OUT ...

## medical care areas

- First aid room, infirmary, hospital, retirement home, etc.
- Patient call, lighting control, access to gases and the computer network
- Functions accessible even for people with reduced mobility, and able to be cleaned easily

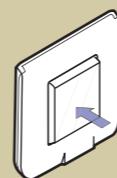

MOSAIC Programme

## HYGIENE AND HEALTHCARE

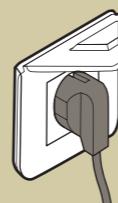

### ANTIBACTERIAL SEALED PLATE

Easily cleanable plate (IP 44), made of antibacterial material  
A single catalogue number for all the control and connection functions

Functions for control through the membrane

Functions for connecting when cover is opened

### ADAPTABLE ELIOFLUX LIGHTING STRIP

Lighting, access to mains voltage and ELV ...  
as simple to install as DLP trunking

### TOUCH-SENSITIVE SWITCH

Lighting switched on and off simply by passing the hand close to the switch

### BEDHEAD TRUNKING UNIT

Perfect integration of Mosaic functions, available in many colours and configurations

You will find the full range of lighting strips and bed head trunking units in the healthcare buildings equipment guide (available in English)

**And always ...**

LED bulkhead lights

Socket for push-button cord

Patient call

→ See the functions

MOSAIC Programme

## INSTALLATION OF FUNCTIONS ... in the wall

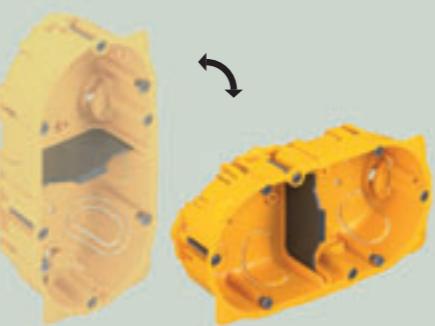

- Combine perfectly with Batibox Programme supports and flush-mounting boxes, making selection easy and reducing the number of catalogue numbers
- Finishes can be changed during or after installation
- Wide choice of functions, user interfaces and finishes

### BATIBOX™ PROGRAMME

A complete, simple system of flush-mounting boxes and supports to make flush-mounting installation easier

#### BATIBOX™ BOXES

New flush-mounting boxes for dry walls

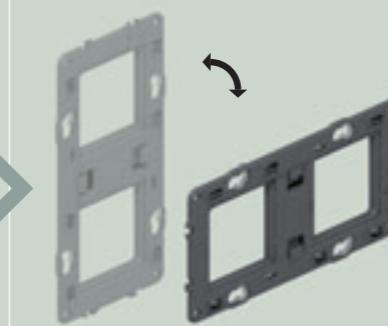

- Vertical/horizontal reversible (71 mm spacing)
- Reinforced ribs for increased rigidity
- Broad flanges for perfect stability
- Wide space for wiring
- Retractable clamps for easy installation

“Batibox Programme also includes masonry, concrete and multi-material boxes”

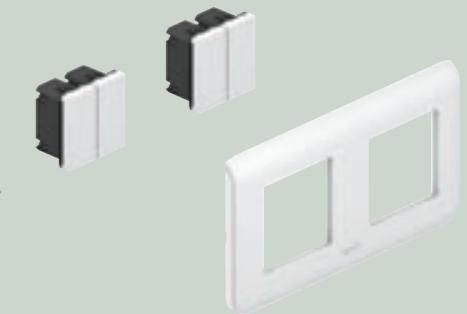

#### BATIBOX™ SUPPORTS

New universal supports for Mosaic and Céline Programmes

- Vertical/horizontal reversible (71 mm spacing)
- Enhanced rigidity

#### MOSAIC™ PROGRAMME

- Cover plate supplied with the mechanism
- 2 finishes for plate and cover plate: white and aluminium

#### CÉLIANE™ PROGRAMME

FOR COUNTRIES  
LAUNCHING CELIANE  
ONLY

- 2 finishes for the cover plate: white or titanium
- 36 finishes for the plate: wood, metal, glass, Corian, porcelain, etc.

#### Find out about Batibox Programme

**legrand**

INSTALLATION OF FUNCTIONS ...

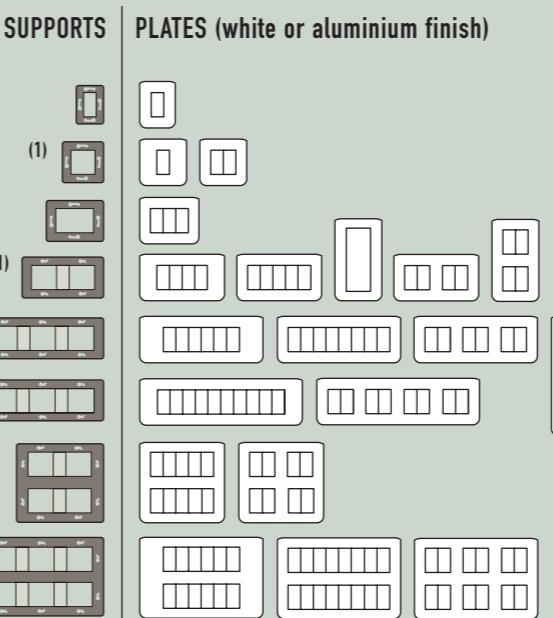

## in the wall (continued)

MOSAIC Programme

- Enhancing functions using light
- Unrivalled choice of plates to satisfy all arrangements
- The new Batibox Programme supports make adaptation easy

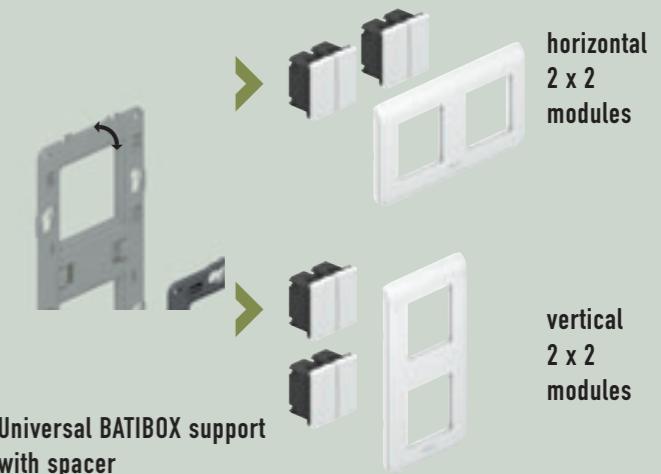

### MOSAIC MODULARITY

The removable spacer supplied with the support allows an easy change from partial modularity to full modularity, both vertically and horizontally. This gives you many configurations with a reduced number of supports.

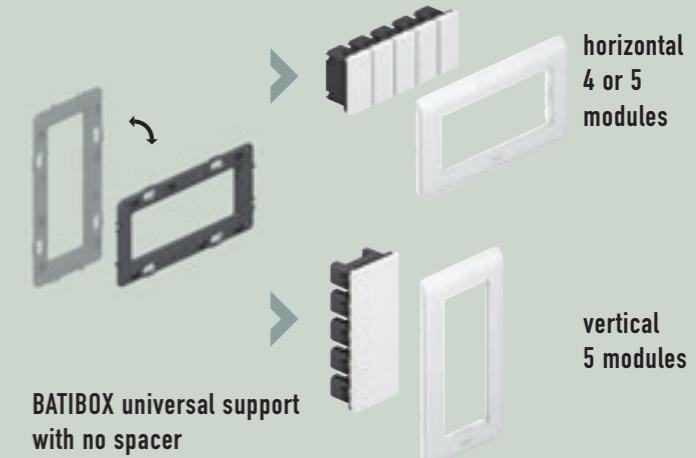

(1) Supports available in illuminated version

### PARTIAL MODULARITY

Universal BATIBOX support with spacer

### FULL MODULARITY

BATIBOX universal support with no spacer

### COMPATIBILITY WITH OLD MOSAIC

$$\text{Old support} + \text{New mechanism} + \text{Old plate} = \checkmark$$

### INCOMPATIBILITY WITH OLD MOSAIC

$$\text{New support} + \text{Old mechanism} + \text{Old plate} = \times$$

$$\text{Old support} + \text{Old mechanism} + \text{New plate} = \times$$

20

**legrand**

## INSTALLATION OF FUNCTIONS ... on the wall

MOSAIC Programme

- Fast and inexpensive to install
- Access to the wiring and functions means easier adaptability and maintenance
- Ideal solution for refurbishment

### THE DLP SYSTEM AND MOSAIC SOCKETS

The winning duo that will save you time when ordering and at installation

#### “Mosaic special” monobloc DLP

With 65 mm cover in 1, 2 or 3 compartment versions.

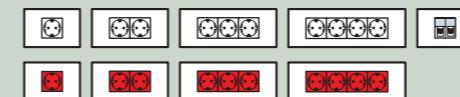

Trunking supplied with body, cover and dividers under a single catalogue number.

1 compartment	2 compartments	3 compartments
<ul style="list-style-type: none"> <li>• 35 x 80 mm</li> <li>• 50 x 80 mm</li> <li>• 50 x 105 mm</li> </ul>	<ul style="list-style-type: none"> <li>• 50 x 150 mm</li> </ul>	<ul style="list-style-type: none"> <li>• 50 x 170 mm</li> <li>• 50 x 220 mm</li> </ul>

#### “DLP special” Mosaic sockets

- The most usual configurations of Mosaic sockets supplied with plate and support under a single catalogue number.
- Fast installation using the feedthrough lateral automatic terminals.

- For special requirements, it is possible to equip the supports with 200 Mosaic functions: support + mechanism + plate.

- Example of installing USB and IEEE 1394 (FireWire) sockets in the upper compartment and a Wi-Fi access point in the lower one

#### Aluminium DLP

- For installations requiring an attractive appearance or robustness
- Installation with aluminium finish Mosaic wiring accessories
- 1 or 2 compartment versions:
  - 50 x 105 (65 or 85 mm cover)
  - 50 x 150 (65 mm cover)
  - 50 x 195 (85 mm cover)

And always ...

MOSAIC Programme

INSTALLATION OF FUNCTIONS ...

## via the ceiling

- Installation freedom and flexibility
- Column modules make adaptation and maintenance easier
- Solution that adapts easily to office reconfiguration

### ALUMINIUM COLUMN

With column module, either equipped or for equipping, with traditional connection

Aluminium or white finish

4 compartments for better orientation of the modules and separation of mains voltage/ELV

Column module for equipping  
(here with an MCB)

Equipped column module  
(here equipped with mains voltage)

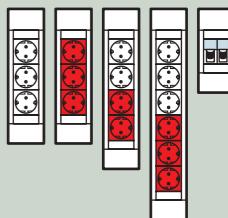

Equipped column module  
(here equipped with ELV)

2 versions available:  
- fixed with compression by actuator  
- mobile on base

### 2 SOLUTIONS FOR EQUIPPING THE COLUMN

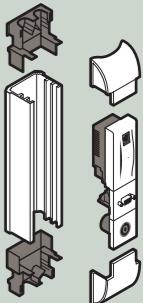

- **Equipped column module:**

The most usual configurations are available as equipped column modules. This saves time when ordering, at installation and during maintenance.  
For wiring using terminal blocks.

- **Column module for equipping:**

Suited to the specific requirements of the user. Compatible with all Mosaic functions (Wi-Fi, switches, lighting control, etc.) and Lexic MCBs.

➤ See the functions

page 34

➤ See the column modules

**legrand**

INSTALLATION OF FUNCTIONS ...

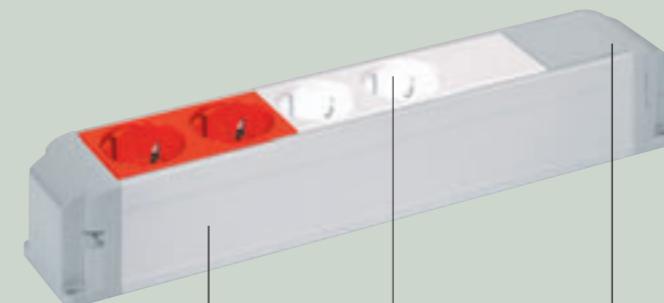

## via the floor

MOSAIC Programme

- Flexible and economical solution
- Preparation in the workshop for installation at the last moment, avoiding theft and damage

### DESKTOP MULTI-OUTLET EXTENSION

Unostentatious and functional, available with fast or traditional connection

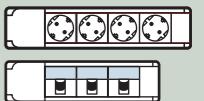

Aluminium body for extra strength

Standard and protected mains voltage

Fast connection makes installation and maintenance easier

- **Universal installation:** under the floor, integrated under a desk, etc.
- **Compact** for many uses

Many solutions available in the catalogue and configurable as required for mains voltage and ELV

### FLOOR CONNECTION BOX

Used to run cables from the access flooring to the desk

→ See the functions page 34

→ See the desktop multi-outlet extensions page 40

26

**legrand**

MOSAIC Programme

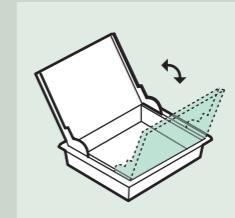

INSTALLATION OF FUNCTIONS ...

## via the floor (continued)

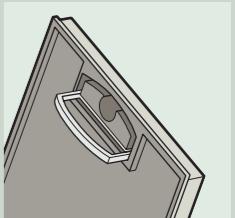

- Harmonious integration into the appearance of the building
- Preparation in the workshop for installation of the wiring accessory supports at the last moment, avoiding theft and damage

### FLOOR BOX

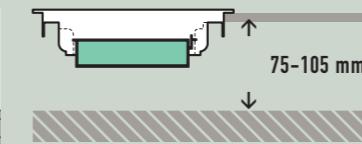

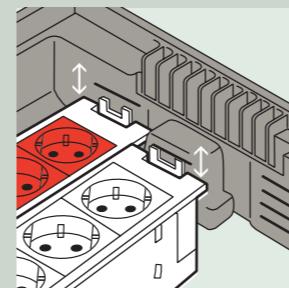

A single range for access flooring and concrete sectional floor

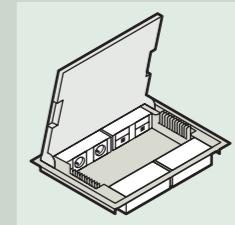

Reversible cover can be covered with carpet, vinyl, laminate flooring, etc.

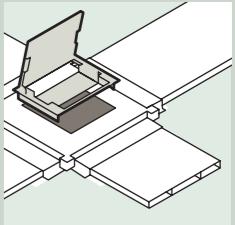

Cover is easy to open without the need for tools

Height of wiring accessory supports can be adjusted to fit the service space perfectly

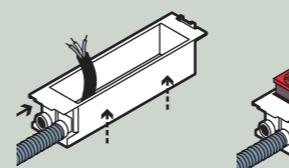

Available in vertical version of wiring accessory supports for low-height (65 mm) service spaces

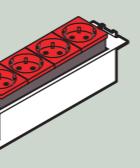

Metal flush-mounting box and floor ducting available for installation on concrete sectional floor

### VERSION FOR EQUIPPING

To satisfy special requirements

① Input of cables

② Connection of the wiring accessories

③ Mounting in the box

→ See the functions  
→ See the floor boxes

page 34  
page 41

**legrand**

INSTALLATION OF FUNCTIONS ...

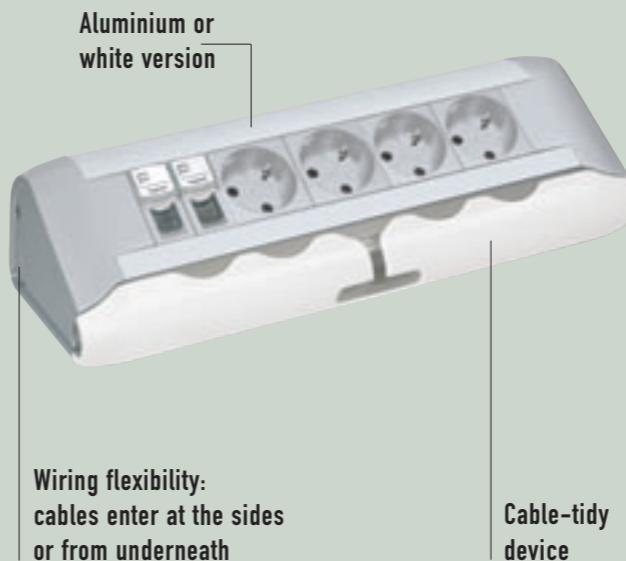

# locally

MOSAIC Programme

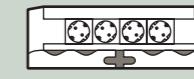

- Several methods of fixing to the workstation
- Good design, attractive appearance and easy to use
- Ideal solution for meeting flexibility and mobility requirements

## OFFICE MODULE

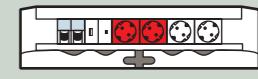

Equipped version or version for equipping, with fast or traditional connection

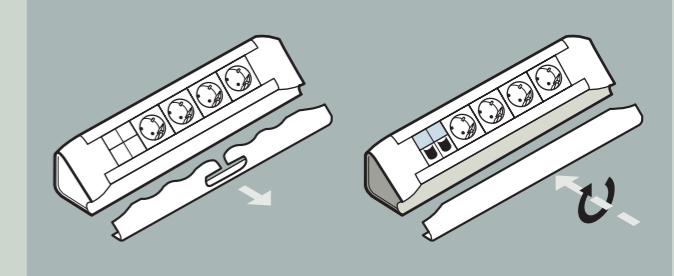

Many solutions, available in the catalogue or configurable as required

Mains voltage

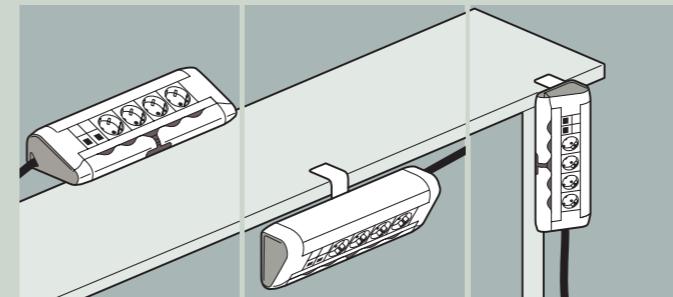

Mains voltage/ELV + USB and IEEE 1394

Reversible device for keeping cables tidy to fit fixed or mobile workstations

## FIXING ACCESSORY

The accessory for fixing the office module to the desk makes it easy to use

➤ See the functions

➤ See the office modules

page 34

page 40

30

INSTALLATION OF FUNCTIONS ...

## locally (continued)

- Perfectly suited to the requirements of meeting rooms
- Good design, attractive appearance and easy to use
- Users connected by Wi-Fi or RJ 45

### MEETING ROOM MODULE

Design and ergonomics at their peak: lines that define robustness and stability, aluminium finish to bring elegance to your meeting rooms

802.11 a+b/g Wi-Fi access point

8 x 2P+E sockets on the front face

RJ 45 socket for supplying the Wi-Fi access point by connecting to an existing socket

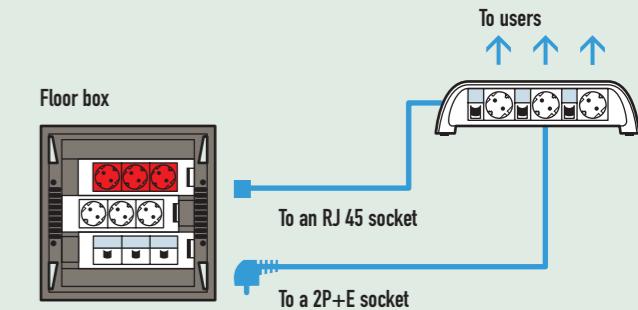

100 Mbps 7-port switch

8 x 2P+E sockets and  
7 RJ 45 connections

RJ 45 socket for supplying the switch by connecting to an existing socket

- Version equipped with a switch having 7 RJ 45 connections for traditional connection using VDI cables to the computer network

### CONNECTION EXAMPLE

32

## INSTALLATION OF FUNCTIONS ...

# locally (continued)

- Installation freedom and flexibility
- Column modules make adaptation and maintenance easier
- The small size of the mini-column allows unobtrusive installation under the desk

### ALUMINIUM MINI-COLUMN

With column module, either equipped or for equipping, with traditional connection

4 compartments for better orientation of the modules and separation of mains voltage/ELV

Equipped column module (here equipped with mains voltage)

Equipped column module (here equipped with ELV)

Aluminium and white finish

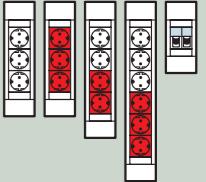

Floor connection:  
can be associated with the mini-column for a junction to trunking

Possibility of running cables directly via the floor

### 2 SOLUTIONS FOR EQUIPPING THE COLUMN

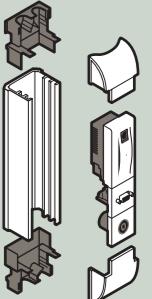

- **Equipped column module:**

The most usual configurations are available as equipped column modules. This saves time when ordering, at installation and during maintenance. For wiring using terminal blocks or supplied with fast-connection connectors.

- **Column modules for equipping:**

Suited to the specific requirements of the user. Compatible with all Mosaic functions (Wi-Fi, switches, lighting control, etc.) and Lexic MCBs.

**Lighting controls**

			<b>FTP Cat.5 copper feedthrough</b>
	786 21	2	FTP Cat.5e RJ45 copper feedthrough
	786 25	2	FTP Cat.5e RJ45 copper feedthrough, Al finish
			<b>UTP Cat.5 copper feedthrough</b>
	786 20	2	UTP Cat.5e RJ45 copper feedthrough
	786 24	2	UTP Cat.5e RJ45 copper feedthrough, Al finish
			<b>Double connector</b>
	786 95	1	FTP Ethernet/telephone double connector
	786 65	1	UTP Ethernet/telephone double connector

## Feedthrough, double connector and telephone RJ45 sockets (continued)

	Cat. No.	Mod.	
	787 30	1	<b>Telephone sockets</b> 4-pin RJ11
	787 31	2	4-pin RJ11
	787 32	2	6-pin RJ12
	787 34	2	8-pin ISDN
	787 38	2	8-pin telephone socket
			<b>Wi-Fi access points powered by POE</b>
	779 11	4	802.11 b/g single band
	779 13	4	802.11 a+b/g dual band
	779 14	4	802.11 a+b/g dual band fitted with a jack
			<b>Copper switch, other computer sockets and faceplates</b>
	Cat. No.	Mod.	
	779 00	6	<b>10/100 base T switch-line</b> RJ45 6+2 switch, 230 V power supply
	779 01	6	RJ45 6+2 switch, POE power supply
			<b>Other computer sockets</b>
	787 61	1	Female USB socket
	787 62	1	Female IEEE 1394 socket
			<b>Faceplates for computer sockets</b>
	786 01	2	ACO 2 receptacle
	786 02	2	Single Systimax faceplate
	786 04	2	Single Keystone faceplate
			<b>Optical fibre equipment</b>
	786 16	2	2 ST optical feedthrough
	786 17	2	2 SC optical feedthrough
	786 18	2	2 LC optical feedthrough
			<b>Buzzers, bells and technical alarm central units</b>
	Cat. No.	Mod.	
	766 40	2	<b>Buzzers and bells</b> 8 V buzzer
	766 41	2	230 V buzzer
	766 42	2	12/24/48 V bell
			<b>Technical alarm central unit</b>
	766 82	3	3-direction technical alarm central unit
	766 90	2	Relay
			<b>TV, audio and video sockets</b>
	Cat. No.	Mod.	
	787 80	2	<b>Television sockets</b> Type "F" single TV connector
	787 82	2	Male Ø 9.52 mm single TV
	787 86	2	TV-FM-SAT

## TV, audio and video sockets (continued)

	Cat. No.	Mod.	
	787 52	1	<b>Video sockets</b> 1 RCA video socket
	787 57	2	VGA HD 15 faceplate
	787 63	2	S-video socket
	787 59	2	Preconnected HD 15+5 BNC socket
	787 58	2	75Ω BNC socket
			<b>Audio sockets</b>
	787 51	2	Loudspeaker socket
	787 53	1	2 RCA stereo audio socket
	787 54	1	3 RCA stereo audio and video socket
	787 55	2	Female XLR socket
	787 56	2	Male XLR socket
	787 60	2	Speakon socket
	787 64	2	Female 3.5 mm jack socket

## Illuminated functions: bulkhead lights and indicators

	Cat. No.	Mod.	
	785 01	1	<b>Indicators</b> 230 V white single indicator
	785 02	1	230 V double indicator fitted with a diffuser
	785 51	1	12-24-48 V single indicator
	785 52	1	12-24-48 V double indicator
	785 11	2	<b>Illuminated obstacle indicator</b> Illuminated obstacle indicator
	785 60	2	<b>Bulkhead lights</b> 12-24-48 V red bulkhead light
	785 61	2	12-24-48 V white bulkhead light
	785 62	2	12-24-48 V green bulkhead light
	785 63	2	12-24-48 V blue bulkhead light
	785 70	2	230 V red bulkhead light
	785 71	2	230 V white bulkhead light
	785 72	2	230 V green bulkhead light
	785 73	2	230 V blue bulkhead light
	785 10	2	Skirting pilot light

## Illuminated functions: signage

	Cat. No.	Mod.	
	785 20	2	<b>Illuminated signage mechanisms</b> White signage
	785 21	2	Blue signage
	785 22	5	White signage
	785 23	5	Blue signage
	785 24	2	Green/red 2-colour signage
			<b>Labels for illuminated signage mechanisms</b>
	785 30	2	Direction arrow label
	785 31	5	Direction arrow label
	785 32	2	Exit label
	785 33	5	Exit label
	785 34	2	WC label
	785 35	5	WC label
	785 36	2	"Meeting" pictogram label
	785 37	5	"Meeting" pictogram label
	785 38	2	"Reception" pictogram label
	785 39	2	"Prohibited" pictogram label
	785 40	2	"Reserved for men" pictogram label
	785 41	2	"Reserved for women" pictogram label
	785 42	2	"Reserved for disabled people" pictogram label
	785 43	2	"Cloakroom" pictogram label
	785 44	2	"Smoking area" pictogram label
	785 45	2	"Non-smoking area" pictogram label
	785 46	2	"Air conditioning" pictogram label
	785 47	2	"Telephone" pictogram label
	785 48	2	"Telephones prohibited" pictogram label
			<b>Functions for medical care areas</b>
	766 55	5	6-direction call unit, 230 V
	766 60	5	6-direction nurse call display
	766 63	2	Socket for push-button cord
	766 64	2	Bathroom call unit
	766 67	2	2 A pull-cord switch for flat lighting strips
	766 65	2	Non-ejectable remote control socket base
	766 68	2	Ejectable remote control socket base
	788 80	2	Antibacterial IP44 sealed plate

	535 51	8	2x2P+E + 2x2P+E F/B polarised
	535 52	12	4x2P+E + 3xFTP Cat.6 RJ45s
	535 53	10	2x2P+E + 2x2P+E polarised + 2xFTP Cat.6 RJ45s

## Empty office modules for equipping - white and Al finish

	535 90	8	White finish (8 mod)
	535 91	12	White finish (12 mod)
	535 92	16	White finish (16 mod)
	535 94	12	Aluminium finish (12 mod)
	535 99	-	Accessory for fixing to desk

## Equipped meeting room modules

	Cat. No.	Mod.	Wired and supplied with cable <sup>[1]</sup>
	535 75	24	Meeting room module, 7x2P+E + 10/100 Base T 7-port switch + 1xFTP Cat.6 RJ45
	535 76	24	Meeting room module, 7x2P+E + 802.11 a/b/g Wi-Fi access point + 1xFTP Cat.6 RJ45

## Desktop multi-outlet extensions equipped for mains voltage (continued)

	Cat. No.	Mod.	Wired and supplied with male coupler built into the end cap
	534 50	6	3x2P+E
	534 51	8	4x2P+E
	534 52	6	3x2P+E polarised
	534 53	8	4x2P+E polarised
	534 54	8	2x2P+E + 2x2P+E polarised fitted with 2 male couplers
	534 55	12	3x2P+E + 3x2P+E polarised fitted with 2 male couplers
	534 60	6	2x2P+E + RCBO <sup>[2]</sup>
	534 61	8	3x2P+E + RCBO <sup>[2]</sup>
	534 62	6	2x2P+E polarised + RCBO <sup>[2]</sup>
	534 63	8	3x2P+E polarised + RCBO <sup>[2]</sup>
	534 64	12	2x2P+E polarised + RCBO <sup>[2]</sup> fitted with 2 male couplers

## Desktop multi-outlet extensions equipped for ELV

	Cat. No.	Mod.	For connecting via VDI cable (equipped with copper feedthrough sockets)
	534 88	2	2xFTP Cat.6 RJ45s
	534 89	3	3xFTP Cat.6 RJ45s

## Empty floor boxes for equipping

	Cat. No.	Mod.	Horizontal positioning of wiring accessories (service space ≥ 75 mm)
	896 05	12	Grey with stainless steel cover
	896 06	12	Grey with cover for coverings <sup>[3]</sup>
	896 07	12	Beige with cover for coverings <sup>[3]</sup>
	896 10	18	Grey with stainless steel cover
	896 11	18	Grey with cover for coverings <sup>[3]</sup>
	896 12	18	Beige with cover for coverings <sup>[3]</sup>
	896 15	24	Grey with stainless steel cover
	896 16	24	Grey with cover for coverings <sup>[3]</sup>
	896 17	24	Beige with cover for coverings <sup>[3]</sup>

## Vertical positioning of wiring accessories (service space ≥ 65 mm)

	Cat. No.	Mod.	Vertical positioning of wiring accessories (service space ≥ 65 mm)
	896 20	10	Grey with stainless steel cover
	896 21	10	Grey with cover for coverings <sup>[3]</sup>
	896 25	16	Grey with stainless steel cover
	896 26	16	Grey with cover for coverings <sup>[3]</sup>

## Equipped floor boxes, prewired and supplied with cables and connectors

	Cat. No.	Mod.	Horizontal positioning of wiring accessories (service space ≥ 75 mm)
	896 40	12	Grey with stainless steel cover: 2x2P+E + 2x2P+E polarised + 2 FTP Cat.6 RJ45s (copper feedthrough)
	896 41	12	Grey with cover for carpet, laminate flooring and vinyl (3 to 10 mm): 2x2P+E + 2x2P+E polarised + 2xFTP Cat.6 RJ45s (copper feedthrough)
	896 45	18	Grey with stainless steel cover: 3x2P+E + 3x2P+E polarised + 3xFTP Cat.6 RJ45s (copper feedthrough)
	896 46	18	Grey with cover for carpet, laminate flooring and vinyl (3 to 10 mm): 3x2P+E + 3x2P+E polarised + 3xFTP Cat.6 RJ45s (copper feedthrough)

## Plastic flush-mounting boxes for concrete

	Cat. No.	Mod.	Plastic flush-mounting box for concrete for 12 mod horizontal and 10 mod vertical
	896 30	12/10	Plastic flush-mounting box for concrete for 18 mod horizontal
	896 31	18	Plastic flush-mounting box for concrete for 24 mod horizontal and 16 mod vertical

## Equipped column modules, prewired and supplied with cables and connectors

	Cat. No.	Mod.	3x2P+E
	307 18	6	3x2P+E polarised
	307 19	6	2x2P+E + 2x2P+E polarised
	307 16	8	2x2P+E + 2x2P+E polarised
	307 23	4	2xFTP Cat.6 RJ45s at 90°

# Installation locally, via the floor and ceiling

- (1): 3 m mains voltage cable, H05 VVF 3G, 1.5 mm<sup>2</sup> fitted with a 2P+E male plug and ELV cable of type FTP Cat.6 fitted with a plug
- (2): 16 A 30 mA Ph+N RCBO
- (3): Coverings: carpet, laminate flooring and vinyl (3 to 10 mm)
- (4) : 6 m mains voltage cable, H07 RNF 3G, 2.5 mm<sup>2</sup> with fast connection coupler

# MOSAIC™ Programme

## Environmentally friendly and controlling energy

The environment is becoming a major component in the construction field, and more particularly in H.Q.E.® constructions where it is becoming a selection criterion for specifiers and project managers. Legrand, fully aware of these developments, is committing itself to action along 4 major lines:

### LINES OF ACTION

- **Industrial sites:** today, 90% of European sites have ISO 14001 environmental certification.
- **Eco-design:** developing products so as to minimise their environmental impact. Since 2004, 20 eco-design projects have been created.
- **Eco-declaration:** providing precise data on the environmental impact of products through PEP (Product Environmental Profile) sheets.
- **Eco-solutions:** proposing solutions that reduce the energy expenditure of buildings.

For more information, please visit [www.legrandelectric.com](http://www.legrandelectric.com)

### SOLUTIONS TO COMPLY WITH RT2005

Energy optimisation in a building also comes through controlling lighting expenditure. Mosaic Programme offers lighting controls that contribute towards energy savings:

		Simple switch (two-way switch Cat. No. 770 11)	Time programming (time switch Cat. No. 784 25)	Presence detection (automatic switch Cat. No. 784 51)	Detection of presence + outside light level (Housing Cat. No. 493 02/04 + sensor Cat. No. 493 31/32/40 + control Cat. No. 784 82/84)	
		kWh/m²/year	Energy savings compared with the simple switch			
SCHOOL	{individual work areas and passageways}	18.12	11%	22%	24%	
OFFICES	{reception areas and passageways}	22.59	11%	22%	35%	
OFFICES	{shared work areas}	24.03	11%	22%	35%	
HOSPITAL	{medical care areas}	24.15	-	22%	29%	
HOTEL	{excluding restaurant}	29.31	11%	22%	26%
