

FEATURES

- **Sintered Bronze Material:** Provides high wear resistance and self-lubricating properties, reducing maintenance needs.
- **25mm Length:** Suitable for compact installations where space is limited.
- **22.05mm Outer Diameter:** Ensures compatibility with standard housing dimensions.
- **15.98mm Shaft Diameter:** Designed for precise fit and smooth operation.

RS PRO 25mm Sintered Bronze Plain Bearing, 22.05mm Outer Diameter

RS Stock No: 528-976

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for applications requiring reliable and efficient rotational movement. Made from sintered bronze, it offers excellent durability and reduced friction, making it ideal for various industrial applications. Its compact size and robust construction ensure long-lasting performance and minimal maintenance.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	15.98 mm

Mechanical Specifications

Length	25 mm
Material	Sintered Bronze
Outside Diameter	22.05 mm
