RS Pro LED Batten, 24W, 5FT

Product Details

This RS Pro single LED 230V batten is a great replacement for traditional T8 battens, which brings energy savings through lower power consumption. Maintenance of these LED battens is also reduced due to high lifetime hours of 30000. LED lighting technology allows instant light at a colour temperature of cool white (4000K) with no warm up time.

Line Diagram:

Specifications:

Weight (Kg)	1.74
Wattage (W)	26
Overall Length(mm)	1525
Overall Width (mm)	60
LED Colours	Cool White
CCT	4000K
Running Current (I)	0.126A
Input voltage	Mains 230V 50Hz
IP Rating	IP40
