

FEATURES

- **Sintered Bronze Material:** Provides excellent wear resistance and durability.
- **25 mm Length:** Compact size suitable for tight spaces.
- **35.06 mm Outside Diameter:** Ensures compatibility with a wide range of housings.
- **29.98 mm Shaft Diameter:** Designed for precise fit and smooth operation.
- **Self-Lubricating:** Reduces maintenance requirements and extends service life.

RS PRO 25mm Sintered Bronze Plain Bearing, 35.06mm OD

RS Stock No: 518-190

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price

Product Description

This RS PRO plain bearing is designed for applications requiring reliable performance and durability. Made from sintered bronze, it offers excellent wear resistance and is ideal for use in environments where lubrication is limited. With a shaft diameter of 29.98 mm, this bearing is suitable for various industrial applications, providing smooth operation and reducing friction.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	29.98 mm

Mechanical Specifications

Length	25 mm
Material	Sintered Bronze
Outside Diameter	35.06 mm
