RS Pro Low Bay Light Fitting Cover For Use With Compact Fluorescent Lamp

Specifications:

Product Details

For Use With

Compact Fluorescent Lamp Lowbay

Compact Fluorescent Lowbay

A lowbay style fitting using 4 x 55W PL'L style lamps (supplied)

Dimmable versions can be linked to the PIR / Daylight Dimming controller (RS Stock Number [424-0397](#)) for energy saving in seldom used areas

Dimmable versions can also be linked to a daylight compensation controller (RS Stock Number [413-071](#)) giving daylight dimming for energy saving where variable natural light is present

Available in standard or integral emergency versions

Use of CFL lamps allows a wider choice of colour temperatures with better colour rendering than SON lamps

Optional cover for use in food preparation environments or areas where there is a risk of breakage

Gives a comparable light output to a 250W metal halide fitting

Supplied with

4 x 55 W PL-L Lamps
