

Technical Data Sheet

PRODUCT DESCRIPTION:	Non-Flammable Contact Cleaner	DATE:	01/98
PRODUCT CODE:	CCL	PAGES:	1

PRODUCT DESCRIPTION

Non-flammable Contact Cleaner is a fast-drying and 100% Ozone Friendly solvent specially formulated for the quick and efficient cleaning of electrical equipment. The aerosol features either spray or brush applicator for economical, efficient, safe removal of contamination (oxides, grease, dust) from live equipment.

PRODUCT USE

Electrical contacts, tape heads, PCB's, components in electronic and video equipment, computers, optical and precision instruments, cameras etc. Spray the surface and allow to dry. For stubborn deposits, use the brush applicator.

CCL may be used in critical applications where cleaning is necessary on live equipment. Examples include the cleaning of broadcast quality videotape heads, when there is not time to power down the system, or industrial applications where the costs of powering down production equipment is high, or impossible.

FEATURES

- * Non-CFC, non-flammable, low toxicity cleaning solvent .
- * Leaves a perfectly clean, dry surface - conventional solvents often leave greasy deposits which attract dust and dirt.
- * Harmless to most plastics, rubbers, elastomers, and surface coatings.
- * Extremely fast drying.

TYPICAL PROPERTIES

Specific Gravity @ 20°C:	1.49
Flash Point:	None
Relative Evaporation Rate:	> 1 (Butyl Acetate=1)
Residue on Evaporation:	None
Viscosity	0.63 cps
Vapour Pressure	39.7 KPa
Boiling Point	43°C
Solubility	Sparingly soluble in water

PACKAGING

200ml Aerosol

ORDER CODE

CCL200
