

## FEATURES

- **Sintered Bronze Material:** Provides high strength and excellent wear resistance, ensuring long-lasting performance.
- **25 mm Length:** Suitable for compact installations where space is limited.
- **45.06 mm Outside Diameter:** Ensures compatibility with a wide range of housings.
- **34.97 mm Shaft Diameter:** Designed to fit standard shaft sizes, facilitating easy integration.
- **Plain Bearing Design:** Offers low maintenance and reliable operation, reducing downtime.

## RS PRO 25mm Sintered Bronze Plain Bearing

RS Stock No: 518-224

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price

## Product Description

This RS PRO plain bearing is designed for smooth and efficient motion in mechanical applications. Made from sintered bronze, it offers excellent durability and resistance to wear, making it ideal for high-load environments. The bearing's primary function is to reduce friction between moving parts, enhancing the lifespan of machinery.

## General Specifications

Product Type	Plain Bearing
Shaft Diameter	34.97 mm

## Mechanical Specifications

Length	25 mm
Material	Sintered Bronze
Outside Diameter	45.06 mm
